Designed by Rapid, Grip and Batten, Ottawa
Engraved by Allan Carswell, CBNCo.

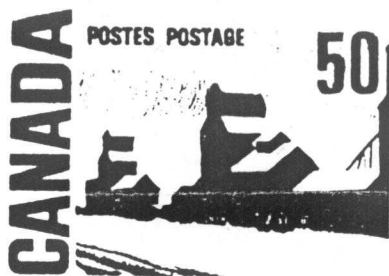

Quantity printed - 85,590,000

Plates used - 2

HIBRITE NEWS

In the last newsletter, I mentioned that Ed Butler reported that 26 mint copies of the 6¢ orange, Winnipeg tagged on hibrite paper had been discovered, including a set of four corner blocks. Since that time, more information has come my way and it now appears that there are definitely more than 26 mint copies around. I know of three dealers who have recently sold mint copies of this stamp and I can account for 32 examples. I also hear that the Vincent Greene foundation has certified one copy of this variety as good. Does anyone know who they contacted for help on this matter? Can anyone provide us with more information on these hibrites?
