Sorry to be so late with this issue. This is the second draft; the computer did something strange with much of the first draft, and I couldn't print it. So, I've had to start over again from scratch. BNAPFX '91 in Vancouver was a success. The trip back was a long but enjoyable drive. And there was a pileup of work to be done, which has left little time for relaxation. Let me get on with the reconstruction of Issue #16, from Allan's notes.

MAXVILLE SLOGAN

One of the nicest K cancels has appeared during the past summer. This was the slogan cancel used at MAXVILLE, ON—a town that normally doesn't have a Klüssendorf machine. The normal cancel used at Maxville is the old duplex canceller. The first members to report this slogan were Bob Thorne and Gordon McDonald. Bob also reported a Maxville cover dated June 14, 1991 with the duplex. Bob's K cover is dated 02 VII 1991 with a 9 timemark. Gordon's strike is 22 VII 1991 5. I have three covers with 28 VII 1991 9, 06 VIII 1991 5, and 21 VI 1991 0 (a date before the machine arrived, so probably an error for VII). The LKU appears to be 06 VIII. Tony Shaman in an article in Canadian Stamp News reports and shows an error from this cancel: 12 VI 198 -00, probably meant to be 12 VII 1991-00. My third cover is also an error date (VI for VII). So far then, we have two errors and four different timemarks: 0, -00, 5, and 9.

In a communication from the postmistress of Maxville, I learned that she received the machine 21 VI 1991 in the afternoon and started using it at that time, and continued until they came to pick it up 07 VIII 1991 around 8:30 a.m. The serial number on the machine was 02215. She believes the machine is used in the Rideau Division of Canada Post for training. Because it was not practical to get a town name slug for Maxville, the machine was run for the whole period with the town-province hub removed. The postmistress, Doreen Crites, noted in her letter of August 8, 1991 that Maxville celebrated its 44th annual Highland Games on the previous weekend, with over 22,000 visitors in a town of 800 people. The slogan read MAXVILLE CENTENNIAL 1891-1991. The centre is black with the words in intaglio. A thistle is in the centre.

In the September 24, 1991 issue of Canadian Stamp News, Tony Shaman had a nice writeup on this slogan. This is the second time such a hub has been found, but this is the first time that it was used deliberately. The previous time was for three days at Elliot Lake due to a broken pin in the machine and the inability to insert the hub until it was repaired.

This is by far the most unusual and intricate K slogan to come along to date. We would still like to establish the EKV and LKV, and the extent of the errors and the timemarks.

YELLOWKNIFE ERRORS

Kevin O'Reilly of Yellowknife has sent us some interesting reports regarding the YELLOWKNIFE K machine. In July, the last normal day was 08 VII 1991. On 09 VII 1991, there was a double error of the month of 09 VIII 1991. for VII. This went to 12 VIII error for 12 VII. In addition, the POSTAL CODE was inverted from 09 to 12 VII. Correction occurred with 12 VII 1991., with both the errors and invert and the correction occurring on the same day.

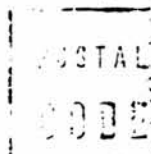

QUEBEC Ks

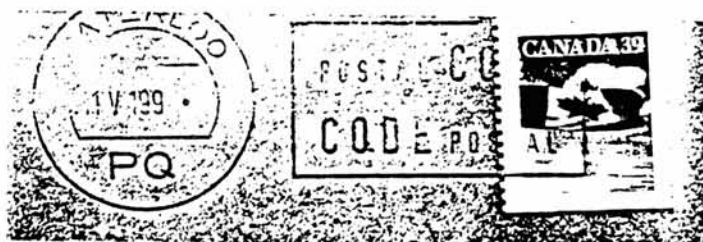

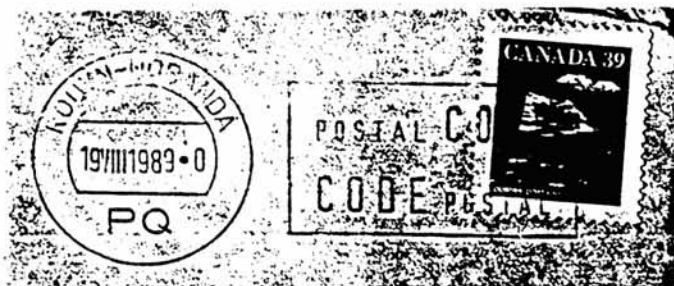

Larry Walker in Montreal has sent us a two-page report of an inventory of his 3000-plus K covers from Quebec province, oriented towards the timemarks in order to show their periods of use. The report is reproduced on pages 281 and 282. Where there are two lines (=), this means ≡. Dots should be at the hyphen level. Some nice strikes with scarce TMs from Louiseville and Rouyn-Noranda are included, on p. 283. This list is up to date to the end of 1990. Thanks, Larry.

BORDEN, ON closes.

Dave Hanes sends us an LKU report for BORDEN of 24 VII 1991-17. Dave also prepared commemorative covers for the closing, and for the 75th anniversary of the Borden office on 22 V 1991-17. These are shown below, and on the next page.

K DOINGS.

Recently, I sent a number of letters to postmasters at Klüssendorf towns where the cancels have not been seen lately. A large number of them have responded, as reported below.

BOLTON, ON - The postmaster noted "This machine is no longer in full service. It is used for local mail & missorts cancellation only. All of our other processing is sent to Gateway for cancellation & sorting." The cancellation reads 25 VII 1991-17.

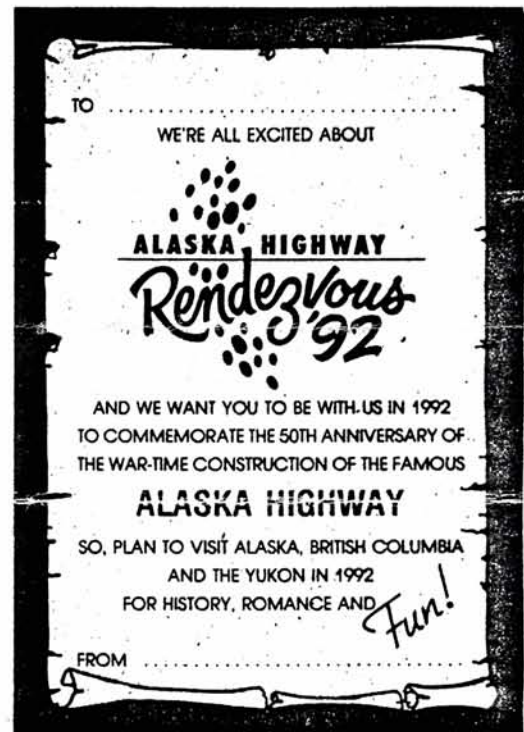

MANUELS, NF - The postmaster notes that the machine came from MOUNT PEARL, Nfld. and is Serial #02339. The EKU according to the PM was about 12 III 1991. The EKU at present is 04 III 1991. The cds steel cancel is known dated 18-II-91.

ACTON, ON - No machine in service. Cover returned cancelled by ACTON POCON.

No responses yet from letters to GRIMSBY and ST. ZOTIQUE.

When I was in PORTAGE LA PRAIRIE, MB in mid-July, I stopped at the PO and obtained several hand-back cancels of the K machine. The postal clerk was rather surprised that I was interested in the machine, or even knew about it. She was pleased to know that there are collectors out there. The machine is used for local mail, but some out-of-town mail does get cancelled with the K machine. kgs

Nonmember Keith Spencer of Edmonton has sent along covers with the WHITEHORSE, FORT ST. JOHN, and DAWSON CREEK Alaska Highway slogans, all dated in July, in case we were not aware. In addition, Keith sent along a photocopy of the advertising card for the handstamp cancel similar to the slogan. This card also has on the reverse side an advertising broadside for Alaska Highway Rendezvous '92. Thanks, Keith. The card is illustrated below, slightly reduced in size.

Bev Clark of Winnipeg sends us a report of a year error at ALTONA, MB of 1992 for 1991 on 9, 10, 11, 12, and 16 VIII.

Greig Hutton has a change of address: 13191 Jasper Place, Tecumseh, Ont. N8N 3K4.
 For that matter, so do I (Allan Steinhart): #305 - 35 Church Street, Toronto, Ont. M5E 1T3. 416-362-8257.

SUMMERSIDE - An article on P.E.I. cancels in the Postal History Society of Canada Journal, issue #67, by Doug Murray notes the LKU of the SUMMERSIDE, PE K was January 8, 1991 before the introduction of the IPS machine with the slogan which has an EKU of January 9, 1991. The EKU of the K machine after the cessation of the IPS slogan according to the article was March 25, 1991. It appears that during the period of January 9 to March 24, 1991 the K machine was not in use.

Tony Shaman sends a report and photocopy of an early date for MANUELS, NF of 04 III 1991.5. In addition, Tony sends LKU for ELMIRA, ON of 17 IX 1990-18 and SIMCOE, ON of 3 IX 1990-18. He also sends a late date for DELHI, ON of 05 IX 1990-18. Thanks, Tony.

And Dave sends a couple of unusual ALLISTON reports:

- ALLISTON, ON 35 VII 1990-16, an impossible date error for 25
- ALLISTON, ON 36 XI 1990-16, another impossible date error that is comined with an inverted POSTAL CODE

Bill Robinson sends photocopies of a couple of new TMs: VERMILION, AB 19 VII 1991. and WESTLOCK, AB 08 III 1991-0. Bill also sent covers from TERRACE, BC dated 26 & 28 VIII 1991, with all the indicia rolling over and the TM only partly showing.

Here are copies of a few recently acquired western Ks (kgs). The 3 different SIDNEY, BC timemarks are interesting.

Theo Gordon has sent information on matched pairs for DAUPHIN, MB and THE PAS, MB (pp. 250 and 254). Here's a look at two very clear strikes from THE PAS, MB TMs -08 and -18 on 08 IX 1990.

CHICOUTIMI, PQ

Some more strikes of this mysterious town have surfaced since the first reports from CHICOUTIMI. We have 7 different date reports, with two timemarks and one error.

22 XI 1989 BL EKU
 29 II 1989 BL Error for 29 XI 1989 BL
 14 II 1990.
 13 V 1990.
 06-08 III 1991 BL

The town name is blank still. CHICOUTIMI can be easily distinguished from LA TUQUE. In the LA TUQUE hub, at the top right, the top parts of the former town name are still visible, although there is not enough to decipher the town name. In the CHICOUTIMI strikes, there are no visible traces of a former town name.

There is a report of 08 III 1991 BL with a LA BAIE, PQ corner card with a blank town name. LA BAIE is fairly close to CHICOUTIMI, and is a known date of CHICOUTIMI use. It is probable that this is not a LA BAIE envelope but a CHICOUTIMI envelope. Here are three strikes from III 1991. With other offices in Quebec having apparently mutilated hubs, we'll need a later update.

SMITHS FALLS, ON. The SMITHS FALLS IIII for III appeared again in March of 1991. This has occurred every year since 1984. It appears at there is a flaw in the dater on this machine and when the hub dater was engraved or cast, IIII was put in for III (March). This is not found on any other K cancel. It occurs from 1 to 31 March in 1991.

BROOKS, AB. Something unusual happened at BROOKS in March and April 1991. Normal strikes are noted on 20 III 1991.1 and on 06 IV 1991.1. Two strikes are noted between these dates on 22 III 1991.1 and 02 IV 1991.1 with the top part of the hub missing, so that the town name and the top arcs of the hub are missing.

CASTLEGAR, BC. A new EKU has been reported: 09 XII 1983.0. The previous EKU was 13 XII 1983.0. This is a 4-day improvement. The timemark .0 was only used in December 1983 in the early period, and did not occur again regularly until October 1987.

ABBOTSFORD, BC. Another ABBOTSFORD strike - 18 IV 1984 BL - has been reported. This fits well with the EKU of 02 IV 1984.

Here's a set of charts on TILLSONBURG, another Klüssendorf being used locally only.

The last page already! And there are still some news items to fit in. Let me wish everyone Season's Greetings, from Al and me. I hope you find lots of nice K cancels in 1992, and send in photocopies and/or reports of them.

LA MALBAIE, PQ. An error from LA MALBAIE has been reported. This is a town from which there generally are few reports. It is the familiar "199" type error, and is dated 08 IV 199 .1 for 08 IV 1991.1. This was also our only report for 1991 when this news item was written. [Other reports extend the period of this error - cf. p.289. KGS]

NAPANEE, ON. The TMs usually used at NAPANEE in September to December 1988 were -07 and -16. TM -06 is recorded on 06 and 07 IX 1988. Strange as it might seem, TM -07 is also reported on these two days. I think that we may assume that -06 is an error for timemark -16.

2002 ERROR. 2002 as a year has occurred on a few K cancels. Shown here is the L'ASSOMPTION 2002 error of 30 I 2002 BL, for 30 I 1991 BL. This is an easy error to make because all four of the year dials are turned one extra digit in error. The next digit on the dial to 1 is 2, and to 9 is 0.

BOLTON, ON. The early report of TM -18 in the unconfirmed column on the master list has now been confirmed. This TM occurred on an error of 18 XII 1980-18 for 18 XII 1989-18. Of course, this is not the original unconfirmed report of -18, but a new report. The error that occurred here was because the last "9" of 1989 and the "7" of the normal TM -17 were rolled one extra digit each.

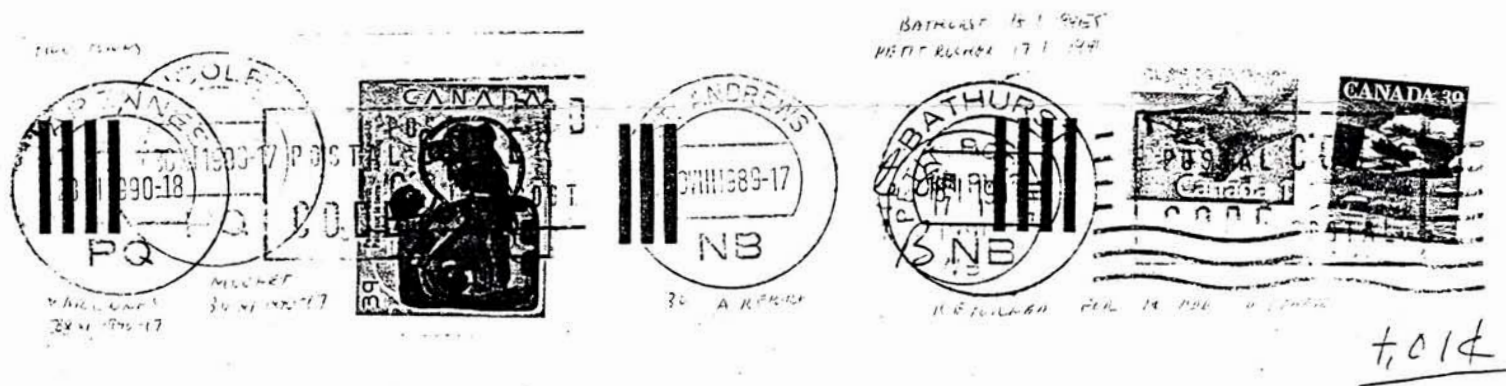

ST. ANDREWS, NB. It appears that the ST. ANDREWS K machine was used more frequently for the 1990 Christmas rush, with reports of 26 XI, and 03, 05, and 10 XII 1990-17. In addition, there were nine other strikes in 1989-1990-1991:

09 IV 1989-11	04 VIII 1989-17	08 I 1990-16
21 IV 1989-11	30 VIII 1989-16	26 I 1990-16
04 VII 1989-11	15 XII 1989-16	1 X 1990-17

BRADFORD, ON. An unusual cover has been reported with strikes of 13 and 14 VI 1989-16. It was placed in the K machine inverted, and was recancelled in the correct manner the next day.

TWO TOWNS. One of the nicer K collecting subareas is strikes of two different K towns on the same cover. Here is an example of VARENNES, PQ on 28 XI 1990-17 and NICOLET, PQ on 30 XI 1990-17. One was the dispatching mark, and the other the receiver.

SHORT PAID. A cover mailed 17 I 1991 at PETIT ROCHER, NB was mailed short paid with a 39-cent stamp. It was returned, the additional 1 cent was applied, and it was remailed the next day at a different post office: BATHURST (K cancel 18 I 1991 =5).

In case you were wondering:

On Sunday, December 8, 1991, the St. Lawrence Hall Postal History Society celebrated the first anniversary of its formation. The Committee of Vice-Presidents (i.e., all the members) decided that all those who have been members for a full year were eligible to become fellows of the society. Hence, the use of F.S.L.H.P.H.S. The STHPHS is a registered chapter of the RPSC. You can become a member by attending the twice-a-month bourse at the St. Lawrence Hall in Toronto. Annual membership fees are \$25; life membership is \$5. However, no life membership fees have been collected. We have even had an annual banquet, and will be having our first annual convention in Edmonton, at Royal '92. The *second* annual convention will be at Stampex '92.
