# THE KLÜSSENDORFER

# Newsletter of the BNAPS Canadian Klüssendorf Study Group

Issue Number 20

1994 January

Coordinator: Allan L. Steinhart, 35 Church St., Suite 305, Toronto, Ont. M4E 1T3. Phone: 416-362-8257. Editor: Gray Scrimgeour, #570 - 188 Douglas Street, Victoria, B.C. V8V 2P1.

#### The Future of the Klüssendorfer.

The Klüssendorf study group is desparately searching for volunteers for coordinator and editor of the group. This issue—the first in slightly over a year—is the last issue in the current dues period. If a new executive, including editor, can be found, then dues will be collected for future issues. A.S. and K.G.S.

As this is my last issue editing the newsletter, let me add a few comments to the announcement above. We have tried to compile and distribute as much pertinent information on Klüssendorf cancels as we could. Few of you may have realized how great a proportion of the information came from a single source, Allan Steinhart. Allan's constant checking of controlled mail sources and reporting of his findings were the basis of the first 19 issues. His major bookkeeping scheme kept track of the comings and goings, the errors, and the timemark periods. I have made up this issue using all the material in my files reported since issue 19.

Although the K usage is decreasing, there are still many things to be learned about K cancels, and I will certainly be collecting them still. One good source of information has been the columns in Canadian Stamp News that Tony Shaman has written. Highlights reported there in 1993 were:

GRAND FALLS-WINDSOR, NF 11 II 1993-17 (2 POs combined)

HAY RIVER, NT 16 VIII 1993 BL (a first report of this new town, by Michel Gosselin)

DAWSON CREEK, BC 03 VII

1993.3 (new TM and INVERT)

ALMA, PQ (blank hub, PQ only) 26 VIII 1993 BL INVERT. This invert lasted for many months.

The number of towns using only postal codes in their hubs has increased and could be the topic of an article for a newsletter. They

include:

GOC 2B0 - New Richmond, Quebec

GOS 2V0 - St. Joseph Beauce, Quebec G0T 1E0 - Forestville, Quebec

JOZ 3R0 - Temiscaming, Quebec GOA 1B0 - Baie St. Paul, Quebec

G5Y 2C0 - St. Georges East Beauce; squat type font for the hub's postal code.

JOE 1V0 - Knowlton, Quebec

Another topic for an article would be the use of filed-down hubs, such as that at Alma. Val D'Or, Roberval, and other Quebec town Ks are using these hubs.

Mike Millar (in The Canadian Philatelist, July-Aug. 1993) reported on typical mail going to 2 sources in Barrie, Ontario. Only 5% of the letters bore K cancels. Not high but higher than in large-city mail. K collecting is still a challenge.

Bill Robinson reports that some K machines in B.C. have moved around. Prince Rupert, Cranbrook, and Nelson have gone to I.P.S. machines (p. 364). Armstrong has a K machine. Trail appears to have the town name removed.

And here are a few last reports from KGS:

LA TUQUE, PQ (blank hub) 08 VII 1992 ≡1

Unreported date error - for 1991.

PEACE RIVER, AB 04 IV 1992 1

Year error for 1991.

HAY RIVER, NT 30 VIII 1993

Hope this won't be my last copy of this new N.W.T. K cancel.

CORUNNA, ON 1 VI 1991 and 8 VII 1991 Nice clear red cancels.

MAXVILLE, ON (usual drk slug for the town and province) SLOGAN 03 VII 1991 9 - a report of this uncommon slogan.

With the completion of this issue, let me wish you all a Happy 1994 and good K collecting! Gray.

Vancouver Island Mail is Being Sorted in Vancouver. Starting on February 12, 1993, some local mail for Victoria is being sorted in Vancouver and shipped back to the Island. Letters mailed on Friday and Saturday are processed in this fashion. The same method applies to all other mail from Vancouver Island. Currently, mail from Courtenay and the south Island is sent to Victoria for processing. Mail from the north Island normally is processed in Nanaimo. A union spokesman suspects that this process Consolidation Program is the first step in moving more Vancouver Island mail to the Vancouver plant.

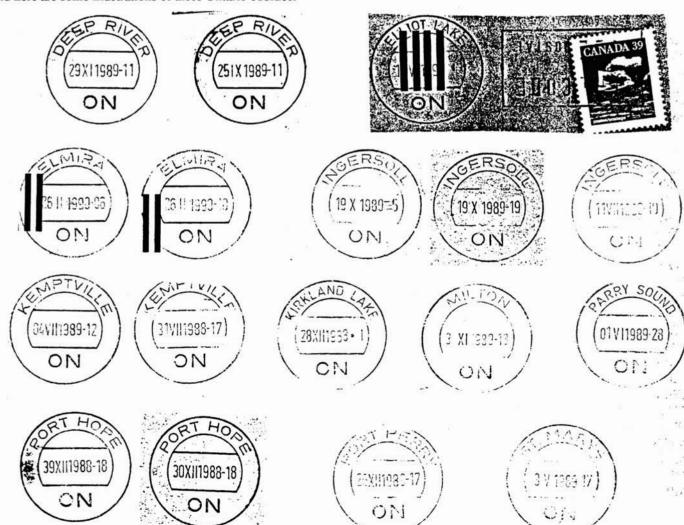

#### Ontario Report

Gilles Tremblay has sent a long report, based upon a large Ontario stock of Klussendorf covers. There are lots of interesting errors, EKUs, and LKUs in his report. We look forward to more reports of this type. Thanks a lot, Gilles! The page numbers refer to pages in previous issues of The Klussendorfer.

Bill points out that QUALICUM BEACH, BC is still using a K machine (seen in use 23 VIII 93.). HAY RIVER, NT is reported to have the machine from QUALICUM BEACH. Can anyone check the serial numbers of these machines?

At the BNAPS regional meeting in Portland, Oregon in October, Bill told me that the K machine in CRANBROOK, BC has been replaced by an IPS machine reading V1O 2NO, and that the K machines in PRINCE RUPERT, BC and NELSON, BC have both been withdrawn and replaced with IPS machines.

Error for 11 I 1992 (per meter on cover)

## And even the editor has found a few unusual K strikes (report from KGS). Covers found at VICPEX:
