

Special Revenue Index Issue

Happy New Year. May the New Year bring you that philatelic literature that you are looking for. We plan on bringing you more issues of Philiography Canada this year, with more content, including some special issues. This special issue is devoted to an index on BNA revenue articles which have appeared in serial publications.

Contents

Index to Revenue Articles 1
 Revenue Book Review 14

An Index to Articles about BNA and Canadian Revenue Stamps that Have Appeared in Serial Publications

By Richard F. Riley

Note: The listing that follows is taken from a computer data base authored by R. F. Riley of the American Revenue Association. This is only a small selected portion of the over 7,200 entries that were published as "An Index to Revenue Articles which have appeared in Serial Publications" and was distributed as a supplement to *The American Revenuer* in June 1992.

This listing was specially prepared for the British North American Philatelic Society. Anyone interested in the entire publication can obtain one from the ARA for \$10.00 US postpaid through the editor, Kenneth Trettin, Rockford, Iowa 50468-0056. The ARA publishes *The American Revenuer* ten times per year and is included with membership. Free information about the ARA can also be obtained from this address.

This computerized data base is a continuing and growing project. A new edition is expected in 3 to 7 years. All interested persons are encouraged to participate so that articles about all revenue stamps worldwide, in any publication, in any language, can be indexed. If you would like to participate, contact the editor of the ARA at the address given above.

This listing © copyright 1992 by The American Revenue Association.

Description of the Listings

The first element of each listing appears in bold face type. It consists of the abbreviated name of the issuing authority or region followed by a colon. Following the colon are several key words which describe the contents of the article.

The second element is the title of the article as printed with the article.

The third element is the authors name given as last name, comma and initials.

The fourth element consists of the abbreviated name of the serial publication, in italics, followed by the year of publication, volume number, colon, page number(s) and short comments indicating such things as the length of the item or if it is illustrated, a checklist or priced.

Abbreviations used under "Serial" etc.

- art. — article
- biblio. — bibliography
- ill. — illustration
- p or pp — page(s)
- s. — short
- v — very
- ### — inclusive pagination
- ##/# — inclusive pagination but not all pages in between.

An Index to Revenue Articles which have appeared in Serial Publications by Richard F. Riley, ARA. Published as a supplement to *The American Revenuer*, Volume 46, Number 6, June 1992. Stiff cover, 192 pages, 8 1/2 x 11. Published by The American Revenue Association, Rockford, Iowa 50468-0056, \$10.00 U.S. from the publisher.

This book contains over seven thousand citations, in over six hundred serial publications, to articles which contain information about revenues. The citations are sorted by country of revenue stamp, followed by keyword. In many cases, there are multiple keywords, but the citation is only listed once. This requires the reader to check in several places when looking for revenue articles of interest. For example, in looking for articles on US stamps which were used to tax photographs, the

index is "US: 1st issue photograph". This took me some time to find, as I had looked under "US: photograph".

The index contains reference to revenues from countries Afghanistan to Zaire. Serials consulted range from *A. C. Roessler's Stamp News* to *Yankee Philatelist*. A good number of the citations are from the United States, 96 pages out of 160 pages. The citations are formatted three columns to a page, and a small type face is used. Various information is categorized by the use of bold and italic type faces which help. To save space, many abbreviations are used in the name of countries, titles of journals, and descriptions of publication. These are explained at the end of the publication, but does require a bit of getting used to. However, once the reader is familiar with the format, the book is a joy to use.

— Paul Burega
