January 23, 1978

Dear Member:

Our Armed Forces Air Letter supplement this time totals 5 pages on which Wilf Whitehouse has recorded facts on the "Privelege" form of Air Letter. Please note on page 9 Wilf's request for a photocopy of the 1942 type form showing the March 1944 postal instructions added. He illustrates the production form of "Honour" Air Letter and then records the beginning of public usage of AFALS.

147...New Member

A welcome to Lawrence Matthews, Box 354, Bracebridge, Ontario, POB 100. We look forward to a sharing of information on the military mail topic.

148...MPO/NPO Survey- Manitoba

An increase of about 30 individual items reported over our first attempt of August 1974. Notice 6A and 6B type MOTOs? Please re-check types. While on the subject of surveys you will note we have no provincial survey this time but rather a survey on a specific group of cancellations which should prove interesting. Ontario is the last province we had planned to re-survey using the latest revised TYPING chart.

149...MPO 1314 - Type 1C

Further to para. 142. Ed Harris sends photocopy of MPO 1314. Our first survey did not reveal the type 1C, nor did our second attempt but now we have an example and readers may make their own notes for their future reference. We have two notes as follows:-

- 1 MPO 1314 was entered in Postal Gazette as MPO CANADA 1314.
- 2 MPO 1314 was in Edmonton but served the Winter Training School at Jasper, Alberta where skiing, snowshoeing, etc. was taught. The MPO was open about 5 months Dec '43 to May 1944.

Two reports of MPO 1202 were received late and a photocopy has been requested.

150...NPO 1112 - type 2A

Request for sketch brought photocopy of NPO 1112 which is type 1B. For next NL has anyone an example of a duplex 2A from this NPO?

151...MPO 100 - Wayne's reply

152...Early Canadian Military cover

153...MPO number series cancels survey

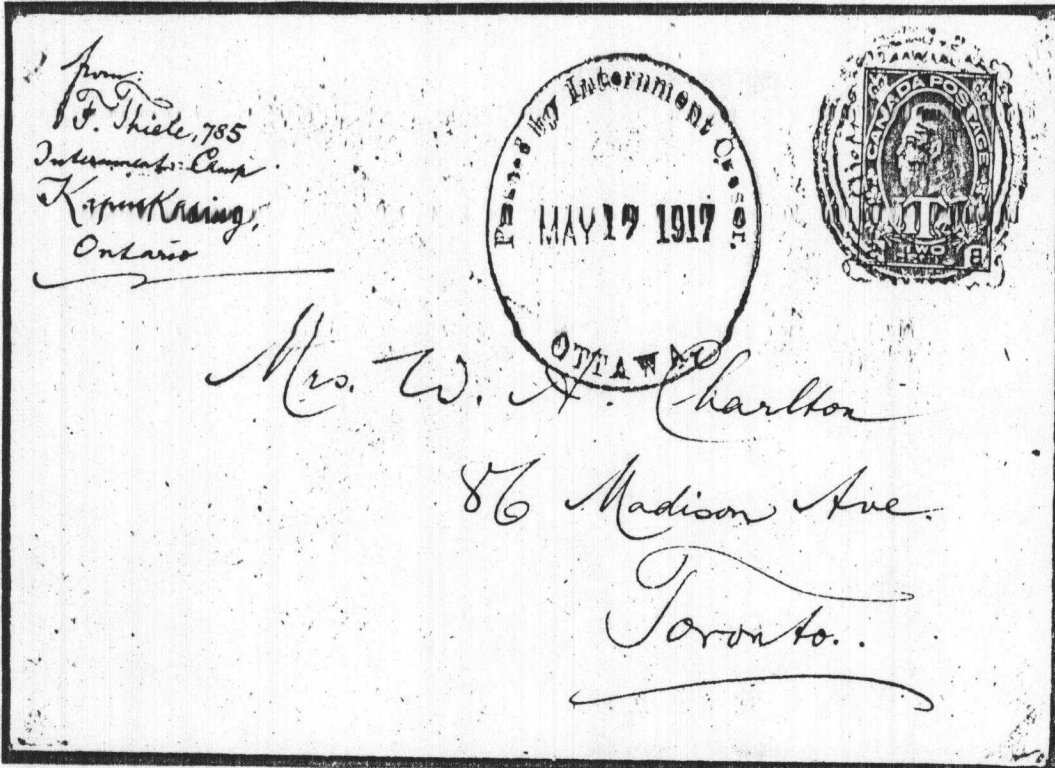

Your replies please to the above address.

154...Censor marking - OTTAWA

Reference is made to Newsletter #20, page 7 and listing of Internment camps - WW1. At the time of writing-up this page the Ottawa censor mark was not known to your scribe. The photocopy illustrated was received from a reliable source of information and is the first evidence of this censor marking.

154... cont'd.

Present information suggests that the Kapuskasing censor marking listed on page 7 was not in use as early as May 1917. Any information pertaining to the Ottawa and Kapuskasing markings is requested and will be passed along to Study Group members.

CJ '77

"CANADIANS ALL" — "TOUS CANADIENS"
CANADIAN JAMBOREE CANADIEN
July 1 — 10, 1977
Cabot Park, Prince Edward Island

Wayne Curtis answered our request for a photocopy of a cover from this MPO which apparently had a very brief life.

The Canadian Philatelist for Sept- Oct, 1977 printed details of the office's operation. In part, the MPO was open from 2 July to 11 July, 1977 to provide post office service to the Scout Jamboree. It was located at Cabot Provincial Park, Prince Edward Island. The official office number was 060763.

A cut-square showing another cancel is included, the covers having identical cachets. Thanks Wayne.

149...MPO 1314 - type 2A

152 ... Interesting and scarce

This borrowed item is illustrated for members to see an early military cover. It is clearly dated FE 27 1857 by a tombstone cancel, Boggs' H32a. The 1 penny rate was PAID at MONTREAL as evidenced by the hand struck circular stamp. Two years later decimal currency was introduced,

From the information on the front of the cover it is not possible to state with certainty the military affiliation of the addressee but strictly as an opinion we believe the Staff Serjeant would have been a British regular.

In 1857 there were considerable numbers of Militia forces in Canada as well as, perhaps, 2000 British Garrison troops. Of the latter the 9th, 39th, 62nd and 63rd Regiments of Foot are listed in a reference.

The term, Foot Artillery, to quote one historian, was once in common use to distinguish from the more glamorous Horse Artillery and the more or less stationary Garrison Artillery. Evidence is not at hand concerning troops at Dundas but it is obvious that some Artillery were there.

It might be pointed out that in the period 1856-1867, following amendments to the Militia Act of 1855, a great many volunteer units were formed, armed and trained but not paid. The Active Militia, also volunteers, were paid.

Despite the numbers of Militiamen who likely spent from 10 to 20 days each year away from their homes few covers from them have been found by collectors.

On the reverse is a fine railway post office marking, Boggs' type 12 reading BR. GRD. TRK. R.W. MAIL COND'R No ?, or in full, MONTREAL & BROCKVILLE GRAND TRUNK RAILWAY MAIL CONDUCTOR No ?. The date is FEB 28 1857.

DUNDAS U.C. receiver's mark is dated MR 2 1857.

Additional information on early covers in general, or the above, will be welcome and would be passed along via the Newsletter.

Note 1: the dates shown in the above photo-copies are the actual proofing dates

Note 2: list all dates you have, or, if you wish, only earliest and latest for any one cancel

Valcartier

The first digit of the MPO number denoted the Military District in which the office was situated.

The results of this survey can determine the approximate scarcity of each cancel and the earliest and latest dates of usage. The more reports we receive the more valid the rarity factor.

Notice St. Thomas MPO 101 has a large 0 in NO. and one dot only at NO. 101.

The assistance of Staff at Postal Museum is acknowledged.

Arrow could be a new one to the scene?

CANADIAN ARMED FORCES AIR LETTERS 1942/45

(continued)

The widespread use of the air letter mentioned earlier brought about the need for a Privilege or Honour form as a substitute for the Honour envelope. The British had such a form available to them which contained a blue triangle on the front and the "Honour" certificate on the back panel. Provided the certificate was signed by the writer, the letter could be passed to the base without having been censored by the Officers of the writers unit.

Prior to such a form being available to Canadian Forces, the certification was written by hand or typewriter (Fig. 9), or if available the British "Honour" air letter was used (Fig. 10)

Fig. 10 - British "Honour" form used by a Canadian soldier in Italy. The triangle appears to be overprinted on a early type air letter and was very short lived.

All examples seen are used from Italy

CANADIAN ARMED FORCES AIR LETTERS - 1942/45

(continued)

Once again following the British lead, Ottawa directed #1 P&S Detachment to prepare a "Honour" Air Letter. As an interim measure a blue triangle was over-printed on some existing stocks of the 1942 type form which was illustrated in Fig. 4, no Honour certificate was included on the back panel (Fig. 11)

On the same form they subsequently added the postal instructions from the March 1944 issue on the front and the Honour certificate on the back panel. I regret that I do not have a copy of this particular sheet for illustration, perhaps one of the readers could provide a copy to the Editor at a later date.

CANADIAN ARMED FORCES AIR LETTERS - 1942/45

(continued)

The "Honour" Air Letter in its production form was designed similar to that illustrated in Fig. 7 with the addition of a blue triangle on the front and the Honour certificate on the back panel (Fig. 12)

There does not appear to be a specific date when this form was first made available. The only date we have to go on is a routine order dated 17 April 1944 announcing the availability of the Honour form, however we know that the overprinted 1942 forms were available months before.

There are a number of varieties in layout and types of paper.

CANADIAN ARMED FORCES AIR LETTERS - 1942/45

(continued)

By mid-1944, the R.C.A.F. was hitting its stride in providing reasonably regular mail deliveries overseas and vice versa, now with "Liberator" aircraft becoming available to help the ageing "Fortresses" Canadian Authorities announced that the Armed Forces Air Letter could be used by the public to correspond with civilian relatives and friends overseas. The date for commencement of this new service was set at 11 September 1944. It is assumed that these civilian letters were transported via commercial airlines which had been relieved of the military mail by the R.C.A.F.
