

The Marshall Wells Organization

An attempt to identify their perforators - by Mark Fennell

Having been a former employee of Marshall Wells, Saskatoon, for many years, and knowing the present manager of the Edmonton branch from the time he was in Saskatoon, on a hunch, I wrote him about two years ago sending photocopies of a picture of a perforator and the M20 perfin. I asked if by any chance the machine was still there. To my surprise I received a reply stating it was in fact in a dusty corner of the vault and was to be put in the Company museum when they moved into new premises. I communicated this find to Jon Johnson, and I note by a previous article in the Perforator that he was able to borrow it to illustrate a seminar he was giving on perfins.

Recently I thought I would have a go at the Winnipeg Head Office re M19, but was not successful. The present Office Manager, who was formerly in Saskatoon, replied as follows. "W.S. (a long time Winnipeg accounting employee) and I have wracked our brains and looked over all old equipment in our vault, etc., but neither of us can identify seeing a postage perforator such as your illustration. I believe, no doubt, Marshall Wells, Winnipeg, had one at one time, but I would think it was likely junked when we moved in 1955, or taken home by someone."

M19 and M20 are two less common perfin designs and associated with the Marshall Wells empire while a third, M21, has been thought by many to be a further design linked with the company. The shortage of material, and a lack of confirming covers has, for many years, hindered attempts to tell the complete story of this group of perfins. What follows is therefore a mixture of fact and speculation, and is written in the hope of spurring others to fill in the gaps in our knowledge.

Background information concerning the Marshall Wells corporate life explains some of the reasons why there is still much to learn. As wholesale hardware dealers with the Head Office in Duluth, Minnesota, the firm established branches in the northwestern United States and western Canada around the turn of the century. The Canadian Head Office was, and still is, in Winnipeg. Warehouses and offices were located in Port Arthur, Regina, Saskatoon, Edmonton, Calgary, New Westminster, Vancouver and Victoria.

In 1938 the company was known as Marshall Wells Co., Ltd. About 1950 Seth Marshall died and the family sold the business. The name changed to Marshall Wells Ltd., and when the new U.S. company failed, they went through several changes of ownership, with the name changing to Marshall Wells of Canada, then reverting to Marshall Wells Ltd. They at one time owned a stove factory, oil company and paint factory. Today Marshall Wells is through corporate structures part of the Hudson Bay Company empire. Nearly all branches moved into new buildings during the 1950's and '60's, including the Head Office in Winnipeg.

Possibly due to tax advantages, the Ontario, Manitoba and Saskatchewan offices were originally known as Marshall Wells Co., Ltd., the Edmonton and Calgary offices as Marshall Wells (Alta) Ltd., and the B.C. operation as Marshall Wells (B.C.) Ltd.

M19, which is known on the 1¢ Edward, could possibly originate from Duluth, although the design is different from the one listed in the U.S. perfin catalogue for that location. As it closely corresponds to M21 (known on the 2¢ Edward -Ed.), it has been suggested that M21 was altered by the removal of pins forming the 'C' to create the M19 design. Perhaps a corporate name change was the reason? M21 could represent Marshall Well's Canadian operations based in Winnipeg. Another possibility voiced is that the 'C' stands for the Calgary office. All of this is based on the conjecture that M21, user currently unidentified, forms a part of the Marshall Wells grouping, while M20 poses less of a problem. The M20 design is reported on Scott Nos. 105, 106, 107, 108, 109, 112, 154 and 155 thus indicating a period of use beginning during the early 1920's and ending about ten years later.

Important Note on Questionnaire Results

In the attached questionnaires there are three important changes. Please adjust your copies accordingly:

- C8 NO REPORTS (delete all figures)
- G15 Change to read 1 report. 1 perfin only - #90. All else is blank.
- H2 Change to read 2 reports. 2 different Cat. No. 3 perfins total.
Cat. #90 and 106. Everything else is blank.

These changes could not be changed on your copies as the pages were printed before the changes were received by the Editor. Normally the original would have been corrected prior to printing but at present the Study Group no longer has a regular source of printing the Perforator. Temporary facilities will be used until the summer break. Thus the first printing is being sent to you and hopefully you will correct your copy to avoid confusion as to scarcity. Michael Dicketts has made one offer to assist with the printing and several options will be reviewed in Calgary. Whatever happens, every attempt will be made to continue to mail the Perforators on the 15th of each month as in the past. We are not out of the woods yet but with 50 active and interested collectors almost anything can be done.

Below is the official list of firms authorized to perforate postage stamps. The list was supplied to Jon Johnson by the National Postal Museum in 1974. The official list gives the name of the firm requesting approval, its location, and date of approval in date order. Copies of the list in date order can be obtained from Jon Johnson. The list has been duplicated below, after attempts to match the Perfin Numbers to the firms and then listed by perfin number. The listings C121 and S10, and possibly C12j may not be accurate as the actual approval request has not been seen.

Perfin Exhibits

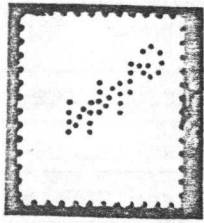

Three award winning perfin exhibits have been reported. The Edmonton Annual Exhibition held April 4th and 5th had two perfin exhibits. Mr. J. Johnson received a Gold medal and Mr. G. Tomasson received a Silver medal (his first attempt at exhibiting). At the Lakeshore Stamp Club's 18th Annual Exhibition held April 10th to 12th in Pointe Claire, Quebec, Mr. W. Gutzman received a Silver medal for his exhibit on perfins. These exhibits indicate that the Judges agree that perfins are exhibitable. The first two of the above exhibits were in the Postal History classification, a possible way to ease into exhibiting might be to begin in a general Canada classification. When you exhibit perfins you are serving two valuable causes, first more collectors will be seeing perfins and possibly more will be salvaged from large stocks of used stamps and secondly, members of your own stamp club may possibly give you some more of "those damaged stamps". A more general overview would be the greater recognition given to the collecting of holey stamps as a serious and genuine philatelic field.

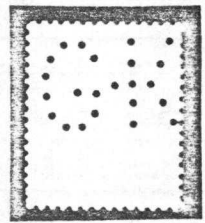

As a reminder, BNAPEX'81 will be held the fourth weekend of September in Ottawa. As it is in Canada this year it would be great to have several perfin exhibits at that show. The Chairman is aware of two exhibits that are planned to be entered. If you have some interesting perfins give some serious thought to exhibiting. The Chairman, and most likely the rest of the Study Group, would be interested in hearing of any exhibit of perfins and its success, both visually and in medals.
