Volume 2, Number 10

Study Group Perfin Survey - compiled by Dick Wilsey.

	L1	P4	P10	P10a	Q1	T4	W4
Reports.	34	13	31	34	31	18	28
Different Catalogue Nos.	205	12	49	276	151	5	116
Handbook Nos. not confirmed.	13	2	-	10	3	-	-
Number of Stamps Reported.	1,237	19	289	2,691	1,164	27	311
Maximum Reports same Stamp.	27	6	21	32	23	10	17
Single Report Items.	61	8	15	28	20	-	48

Total Number of Reports - 36.

Handbook Reports based on 1979 edition and apply only to items 1,2 & 3 above.

Report dated June 2, 1981.

(Ed - most of summaries in the October Perforator.)

Handbook Listings not confirmed in this Study.

L1 - 237, 245, 246, 247, 248, 272, 274, 277, 312, 323, 356, 358, C9.

P4 - 149, 176.

P10a - 182, 206, 262, 274, 275, 293, 302, 310, 312, 370.

Q1 - 247, 268, 253.

These numbers are included in the number list for each design, but no member answering the questionnaire reported them in his collection although they were included in the 1973 BNAPS Handbook.

There were several replies which did not separate P10 and P10a. In those instances an arbitrary separation was made at #161.

Some replies were based on the Canada Specialized Catalogue numbers. In those cases the stamps were reported here by the basic number only.

Background on Perfin Users of Canada _____ by Al Pearson

THE ANGLO-NEWFOUNDLAND DEVELOPMENT COMPANY

The Anglo-Newfoundland Development Company was incorporated on January 7, 1905, at St. Johns, Newfoundland, with a capital of \$5 million. The forces behind the incorporation were the publishers of the London Daily Mail, Alfred C. Harmsworth (later Lord Northcliffe) and Harold Sidney Harmsworth (later Lord Rothermere).

In the early 1900's, Lord Northcliffe began looking for a secure and continuous supply of newsprint for his publishing interests in the United Kingdom. In the event of a European war, the normal suppliers in Scandinavia would have much difficulty assuring delivery to Britain.

The Harmsworths decided to examine North America as a permanent source of newsprint and, as a hedge against the rising cost of newsprint, they also looked at the feasibility of establishing their own pulp and paper mill.

Following exhaustive studies, and on the recommendation of Sir Mayson Beeton, the company's first president, Grand Falls in Newfoundland was chosen as the site for this industry.

In spite of opposition both locally and abroad, construction began in July of 1905 and by midsummer of 1909 the mill and the townsite were substantially completed.

Formal opening ceremonies were held October 8 and 9, with the official opening taking place at 8:30 p.m. on October 9 in the presence of over 1500 guests. The first roll of paper was produced on December 22, 1909.

The initial capacity rating of the mill was 30,000 tons annually. Today the mill capacity is rated at approximately 300,000 tons per year.

The town of Grand Falls, which grew around the mill, was administered by the company until 1960, when the 6,000 community residents began handling their own government. The town was incorporated January 1, 1961, and in 1964 was presented with an official coat of arms by the honourable Vere Harmsworth on behalf of the family which had initiated the development of the industry and the community. The era of industrialization may have begun with the Grand Falls development.

In more recent history, Anglo-Newfoundland merged with Price Brothers and Company in April of 1961 to form a group of companies ranking as one of the largest newsprint producers in the world. On April 29, 1965, the company name was changed to Price (Nfld.) Pulp and Paper Ltd. to take advantage of the competitive edge the name "Price" enjoyed from over 100 years of world marketing.

In 1966, the company name again changed, to the Price Company Ltd. - La Compagnie Price Limitee in the 150th anniversary of the founding of the first Price establishment at Quebec City in 1816.

In 1974, the Abitibi Paper Company Ltd. acquired controlling interest in Price Company Limited.

As for the Perfin pattern used by the company (Canada No. A-4, shown below) some information on the perforator has come to light through correspondence with the friendly general manager at Grand Falls, who just happens to be a collector. He has tracked down one of the local residents who operated the perforator from 1917-1919. This clerk felt that the perforator had been in use since the plant startup in 1909. The Woolley BNAPS Handbook, however, lists the a-4 Perfin as known on the issues of 1911-31

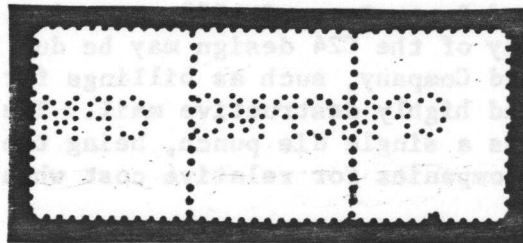

Although the perforator make and model are unknown to him, the oldtimer who operated the perforator recalls that it was a single-head unit with a hand crank which perforated the stamps one at a time. The perforator had no feeding device, so the stamps were separated into strips and the strips fed by hand as the head was cranked up and down. Unless attention to the centering of the stamp was followed, the stamps with random Perfin centering would result.

The present location of the perforator is unknown, but it is believed to have been scrapped some years ago. Because the AND Perfins are relatively scarce, the probable start date and final use date of the perforator will probably take a lot of searching through dated copies.

I would appreciate any information that anyone can supply on this particular aspect of the A-4 Perfin.

From "The Perfins Bulletin" October 1979
with the approval of the author.

With reference to design C24, the recent acquisition of a strip of three 2c Numerals by Jon Johnson was the first real supportive indicator of positive Winnipeg use. Jon acquired the illustrated strip with the critical machine cancel identifier bearing Winnipeg cancel Sept. 25, 1903, this date about ten months and one issue prior to the Winnipeg Box Number cover already recorded.

With this information it was hoped that the user of this presently unidentified perfin could finally be tracked down. While the Winnipeg origin already recorded in the last Handbook is probably from the aforementioned cover, the identification and zeroing in on the actual user now seemed to be a good possibility.

Jon Johnson had at this time come up with two possible Winnipeg users, the Canada Permanent Mortgage Corporation or Canadian Produce Merchants, the letters of the first mentioned fitting in to the perfin design very well. When Jack Benningen, via Jon, first transmitted the above designs to me, numerous calls, interviews and follow throughs instigated with different people at the Winnipeg office of the Canada Permanent met with little success and all with dead end results. One of the older staff members of Canada Permanent wrote letters to their Head Office in Toronto and did some searching on his own, all ending with a negative result regarding the purchase or use by Canada Permanent of any stamp perforating device. Further enquires regarding the possession or disposition of such a machine have had to be abandoned.

Henderson's Directory gave the following information:

- 1900 - Canada Permanent Loan and Saving Co., 343 Main Street.
- 1902 - as above.
- 1903 - Canada Permanent & Western Canada Mortgage Corporation, 347 Main Street.
- 1904 - as above.
- 1905 - Canada Permanent Corporation, 347 Main Street.
- 1906 - Canada Permanent Mortgage Corporation, 347 Main Street.

Information from "Consumer and Corporate Affairs and Environment: revealed that 'Canada Permanent & Western Canada Mortgage Corporation' was incorporated April 6, 1900.

In the 1903-04 period the Canadian Produce Merchants is the only other company name or listing in the Winnipeg area that fits the die punch lettering and a possible user of the perforating machine. The following information was gleaned from Henderson's Directory:

- 1903 - Canadian Produce Co., 178 Princess Street.
- 1904 - Canadian Produce Merchants, 178½ Princess Street.
- 1905 - Canadian Produce Co., 178 Princess Street.
- 1906 - as above.
- 1907 - Canadian Produce Co. Ltd., 230 King Street. (last listing)

Information from "Consumer and Corporate Affairs and Environment" revealed that 'Canadian Produce Co.' was officially incorporated on December 8, 1905, and ceased to be listed in the Winnipeg area Telephone Directory after the year 1906. It is now concluded that no other Winnipeg user would fit the C24 perfin design in the short life period of 1903-04. Also noted is the fact that the 'M' in the changed corporate name of Canada Permanent Mortgage Corp. was not in use until 1906.

cont'd.

Attached is the legal corporate document (Ed - five legal sized pages) pertaining to the official recording of the Limited Company in the Province of Manitoba, officially registered on December 8, 1905.

For the benefit of all perfin students what is badly needed now is a corner card of printed Company flap of Canadian Produce Merchants with a perforated stamp 1903-04, such as solved the mystery of Perfin design T5 - TP&T reported in Topics of February 1971 and Sept.-Oct. of 1978, Page 4. It is suggested that the apparent and relative scarcity of the C24 design may be due to the type of outgoing mail used by the proposed Company, such as billings for invoiced goods, statements and similar short life and highly destructive mail. The spacing of the letters in the illustration suggests a single die punch, being the more common type of machine purchased by small companies for relative cost when perforating devices were in vogue.

It is with great regret that we report the death of another member of the Study Group. William (Bill) Watmough a long time perfin collector passed away recently in Hamilton. With his passing we have lost another collector with considerable knowledge of perfins.

Additions to the participants listed in Sept.
