

Annual Meeting

Our study group annual meeting including the election of officers will be held during the BNAPS Convention. Dates and location will be announced in topics, and will also be posted on the bulletin board at the convention. Hope to see you there.

Newfoundland Perfin Survey

The response to the survey has been excellent. As well as a good response from members, we have had reports from the readers of Linns, where we placed a news item. For those who have forgotten to mail your survey sheets, please do so now so that we can have an interim report at our annual meeting.

Il IC/R Intercolonial Railway.

We Canadian Perfin collectors can now bask in glory. Our hobby has reached another plateau.

On June 16, 1987, during CAPEX, R. Maresh and Son held an auction of rare Canadian Stamps.

One of the lots was an 1893 cover, franked with a 3¢ Small Queen, and a 2¢ registration, both perfined IC/R. It was sold for \$2600.00 plus 10% commission.

C(HI) International Harvester Company of Canada

The various types of C(HI) with code holes, from C17 to C35 are a very interesting group, and are much sought after by perfin collectors.

In the following 5 pages are listings of the issues of these 19 types of C(HI).

Please send any additions to the editor. They will be included in a future issue of the Perforator.

Articles

Why not send in a short article for a future issue of the Perforator. Any article concerning our Canadian Perfins will be appreciated.
