

PUBLISHED BY THE BRITISH NORTH AMERICA PHILATELIC SOCIETY
CANADIAN PERFIN STUDY GROUP

Volume # 14 Number 6 Whole # 85 November 8th , 1993

FROM THE EDITORS DESK:

This issue has the following inside:

It does not have Marks usual Chatter, but instead has an article about the Steadman Bros. and the GTR perfin.

It has our revised 1992 Constitution approved this year at the Perfin Study Meeting at the Royal York Hotel, Toronto, Ontario. A report given by Steven M. Koning on that Perfin Study Group Meeting. A report of the Secretary - Treasurer to the Perfin Study Group.

A letter to the Editor from Barry Clarke of New Zealand from that land Downunder

Speaking of Downunder, my wife and I will be seeing Barry Clarke also Arthur and Helen Taylor in January as we are going down there for about three weeks.

Your Editor received a letter from Conrad Tremblay last month to the effect that he will be having three(3) auctions per year. Which is one per every second issue of the Perforator, this is quite an undertaking. Let us support him by sending him our GOOD MATERIAL that we want to sell and try our best to buy lots of material that we need. Looking over Auction # 6 which is big at 348 lots, he has done an excellent job with this auction. I consulted with Marcus tonight and we both felt that December 3rd was cutting it too fine so I changed the date to December 10th. I only received the auction list today and I have to get it xeroxed and in the mail Tuesday with Wednesday being the latest.

This is a large edition of the Perforator because of the reports and the auction. We still need more material for later on in time.

Looking ahead, January we will have the late Mike Hargrafts report on the " F " rated Perfins. This will have to be cut in half as it is too large for one issue and since I need material I might as well make two issues of it. The March issue we will have another Auction.

From the Chairman:

The chairman regrets, that due to just having returned from holidays, he does not have time to prepare his ' chatter ' before the deadline for this newsletter, but instead he has requested that his article re the GTR perfin and Steadman Bros. be published instead.

Marcus B. Fennell

Bob Traquair enquired, in Perforator #71, as to whether or not this situation could be explained. I have a possible, if not correct, explanation based on the following.

- The GTR had a presence in Brantford as evidenced by a library book containing a photo of the station in Brantford, with this notation. "Brantford CNR station which was built circa 1904 by the old Grand Trunk Railway, which operated until its amalgamation with the CNR in 1923".
- Stedman Brothers were wholesalers of general merchandise.
- In 1920, the date of the strange usage of the GTR perfin, a dollar could purchase a considerable amount of merchandise. For example liquid ink, pen holders and pen nibs were the writing materials of the day. Wholesale prices at that time would be in the neighborhood of - bottle of ink 12¢, pen holder 3¢, pen nibs 20 for 7¢, paper clips 7¢ a box, stick files 7¢, so if office supplies were needed, GTR could get a lot for a buck.
- The GTR would no doubt bulk purchase at its head office in Montreal and send any supplies needed to its various locations, and thus local purchases would be non-existent or only by an authorized requisition from Head Office, taking more time and trouble than it was worth to obtain.
- For every rule and regulation there is usually a way around it. I spent all my working years in the wholesale hardware business. We would sell to local offices of government departments, which had a limit on the amount that could be ordered locally. If, for example, the limit was \$10.00 and the office wished to buy 15 items costing \$1.00 each, instead of getting a purchase order for \$15.00 from Head Office, they issued 2 local purchase orders, one for \$10.00 and the other for \$5.00. They had the goods they wanted instantly and got around the regulations.
- My first job in the wholesale hardware business in the late 30's was to open the mail and distribute it to the departments concerned. Sometimes it did occur when a small monthly statement was paid by cash or stamps or a combination of both. This was acceptable to the company, as after a book-keeping entry, the stamps came back to me to use on outgoing mail.
- From the many examples that exist of the private use of company perfins, it is evident that the post office paid no attention to this practise much less a bank concerning itself about the type of stamp on cheques.

Having said all this, imagine this scenario. One of the GTR agents in Brantford, be it passenger, freight or express, with no authority to purchase locally, needs a few office supplies in a hurry. He arranges with Stedman's to purchase on a cash sale, payment being by stamps which he would no doubt have, and possibly doing so on more than one occasion. Stedman's thus had GTR perfined stamps which they used to pay the excise tax on cheques issued, probably feeling there was less likelihood of this being noticed by a bank than the P.O. department.

The above should qualify me as a detective or fiction writer, I don't know which, if either, it would be.

CONSTITUTION

BRITISH NORTH AMERICA PHILATELIC SOCIETY PERFIN STUDY GROUP (1979)

(Revised 1992)

*Approved at 1993 Study Group
Meeting at Royal York, Toronto.*

OBJECTIVES:

To update, on an ongoing basis, the information in the current edition of the BNAPS Handbook on Canadian Perfins with the intention of eventually printing, when circumstances dictate, a revised edition.

To add information to that presently in the Perfins Handbook which is of interest to perfin collectors and other specialty fields.

To provide perfin collectors with a source where answers to Canadian perfin queries or problems may be found.

To promote perfins by assisting collectors in writing articles and perfin postal histories for philatelic journals and newspapers.

Where possible to encourage collectors to exhibit perfins at all levels of philatelic shows.

MEMBERSHIP:

Must be a member in good standing of BNAPS.

ORGANIZATION:

Will have a two member executive - Chairman and Secretary. The members holding executive positions will be reviewed annually, at the annual BNAPS Convention, with positions being confirmed, withdrawn or appointed by a majority of the Study Group members attending. The executive has the option of appointing a Newsletter Editor and an Auctioneer, if they deem such positions advisable.

DUES:

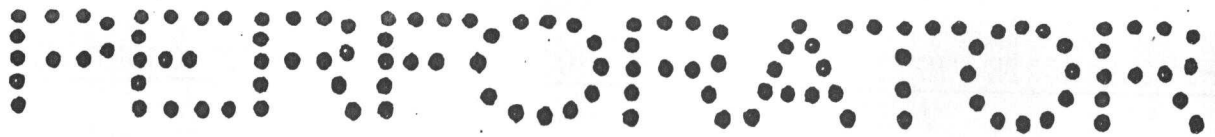

Each member upon joining the Study Group will pay an entrance fee, equal to the current year's annual dues, to the secretary. Annual dues will be set by the executive to cover expenses incurred by the Study Group, which are primarily costs related to the printing and mailing of the Perforator. Dues will not be set in such a way that a large credit will be built up in the name of the Study Group.

AFFINITY WITH OTHER PHILATELIC SOCIETIES:

Will be in contact with other Philatelic Societies and their members, in the Study Group's name, to achieve the objectives listed above. The Study Group will accept research assistance from members of other Philatelic Societies. Whenever possible these people will be encouraged to join BNAPS and the Study Group, officially.

EXECUTIVE RESPONSIBILITY:

The secretary controls the funds, held to cover operating expenses, and records and files of the study group. Both the chairman and the secretary will jointly direct the activities of the Study Group, and either may correspond with third parties regarding Study Group business. The secretary is to receive a copy of the chairman's correspondence for the files.

93-09-04-10:00

Report of the Secretary-Treasurer to the Perfins Study Group

1. Since taking over as Secretary-Treasurer in November 1992, I must report that one member has resigned, and one member has been deleted for non-payment of dues.

Total membership to date is 46. Those in attendance are asked to help promote the objectives of our study group by increasing its membership. Those referred to me are given a copy of the Perforator, and advice as to the benefits of our little group.

2. I thank Michael Dicketts for passing on to me an orderly set of records and books, in November 1992. At that time the balance was \$628.59. Since then, income has been

• dues received	239.54	
• auctions 4 + 5	125.00	
• BNAPS	<u>105.00</u>	
TOTAL INCOME	469.54	<u>469.54</u> +
		1098.13

Expenses have been:

Banking Costs (Dicketts)	30.90	
Banking Costs (Koning)	10.00	
Stationery (cheques)	58.08	
Perforator Publication Costs	526.76	
Advance to Publisher McNey	<u>100.00</u>	
	725.74	<u>725.74</u> -
Bank Balance as of today		372.39
Assets (Advance to Publisher)	100.00	
Liabilities (Pre-paid Dues)	<u>75.00</u>	Net <u>25.00</u>
<u>TOTAL ASSETS</u>		<u>397.39</u>

As can be seen, our auctions contribute greatly, thanks to Mr. C. Tremblay. I have the books with me if anyone wishes to see them.

3. Mr. Chairman, I move that the annual dues remain at \$5.00 for 1994.

Carried

4. Those wishing to prepay these dues now may do so in the form of cash or cheques.

5. The Study Group's constitution was revised in 1992. Copies are distributed.

6. I move that the constitution be adopted as presented.

Carried

PERFIN STUDY GROUP MEETING

September 04/93 at the BNAPS Convention.

Report given by Steven Koning.

Eleven members met and approved three motions which
-reappointed all current officers (3) and our auctioneer.
-approved our 1992 revised constitution.
-approved our 1992 fee to continue at \$5.00 per annum for
our study group.

Two new members joined, and one lapsed member rejoined.
The current membership is 50, all paid up. Members came from
as far as New Zealand and San Francisco.

Jon Johnson gave a very well documented and illustrated
slideshow talk on early and late dates of use of the
O.H.M.S. 4 hole and 5 hole perforators ! It was much
appreciated all in attendance.

Members present shared their interests with each other.

Pat Durbano and Ron Whyte will be working, with Jon
Johnson, on up-dating the known issues of provincial
perfins.

The two hours went much too fast.

Steve Koning

A LETTER FROM DOWNUNDER

Dear Editor:

I run a circuit book in N.Z. for the N.Z. &
Australia Perfin Club and of all the members know that I
collect Canadian Perfins. Great excitement when one of them
sent me a cover from Morden Experimental Station with MS
perfin on 253. I could't find it in "The Bible" so I
thought all my dreams had come true and I'd found an "A"
perfin.

I was so excited that I phoned a "Canada Collector" in
Auckland to tell Jim all about it.

"Are you sure it's not an OH/MS" he asked. Sure enough,
the very bottom holes of O & H just cut the stamp
perforations.

I felt a proper fool, but it was great while it lasted.

I still don't know what Morden Experimental Station
does, only that it is in Manitoba somewhere, but it gave me
the biggest thrill I've had since I started collecting
Perfins.

Barry Clarke New Zealand

Editors Note: Can anybody out there tell us what the
Morden Experimental Station did ? and where in Manitoba?

Thank you Barry for the letter.

PERFIN STUDY GROUP AUCTION No. 6

Welcome to the 6th Auction of the club. It is the second I prepared and I hope that the efforts I put in preparing it will give the perfin lovers a chance of buying at low prices a gift for themselves and their collection.

5 consignors offering 348 lots of which 110 are illustrated to help you evaluate the item. A full description of the lots are given, including the perfin factor (PF), the condition of the punch, the stamp and the cancel if not average. Special cancels are also noted. They explain the higher estimate or reserve.

This auction offers:

- Several "E" rated perfins;
- A unique collection of CBC (C6) perfins, incl. rare item
- A number of superb double or multiple punches;
- A representative OHMS group of perfins;
- Several covers with canadian or foreign perfins;
- A good sample group of RPO's with an extremely low estimate values, the consignor hoping to reach few interested collectors in that field.

The lots photographed are:

- All the double or multiple punches, regardless of value;
- All lots with an estimate or reserve value of 5\$ or more;
- All the covers, postcards and perfins on pieces. These lots were reduced down in size to 66% to save space.

No bid will be accepted under the reserve (R) value, but I will accept lower bids on lots with an Estimate (E) value given by the consignor or by me. Bids lower than 75% of the estimate value will be declined.

Kindly bid by lot number in 10c increments below a dollar and 25c increments otherwise. Successful bids will be 10% above the next highest bid, rounded up according to the above increments. The Study Group will charge a 10% commission only on all lots sold, payable by the consignor.

Successful bidders will be notified by mail. The stamps will be forwarded on receipt of funds.

Send in your bids early to the auctioneer:

Conrad M. Tremblay
3259 Lookout Park
Rawdon Que., Canada
J0K 1S0

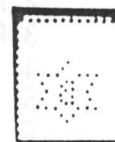

or call (514) 834-3052

Bidding closes December 10, 1993 at midnight (postmark on your letter). All bids will be in canadian funds. Payments in U.S. dollars are accepted at a discount of 20%. GOOD LUCK !

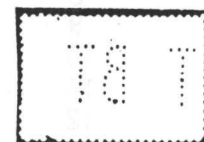

The abbreviations used:	VG	-	very good
	cds	-	cancellation
	circ.	-	circular
	SON	-	sock-on-nose
	lt	-	light.
