Postal Stationery Notes

Volume 15 No. 3

September 1999

Recently Bill Walton asked me would I consider editing the Newsletter. I said I would, but I can not promise to equal the excellent job done by the former editors. Also I will not attempt to show anything in colour for the time being. But I want to start a column "What's New in Postal Stationery" to let you all know as soon as possible what is being issued. I think that this is very important to most of us, since the post office is not very efficient in reporting everything in new issues of postal stationery. But to not miss any items I need your help in reporting anything new to me by E-mail, phone or regular mail. Of course I am also in need of any articles about postal stationery for publishing in the newsletter. The more I get, the sooner I can bring the next issue.

All information for the newsletter, and correspondence about the study group, should be addressed to Dick Staecker 384 Regal Drive, London, On. Canada N5Y 1J7, phone 519-4559715, E-mail may be sent to dstaecker@sprint.ca. Any dues should still be sent to John Grace, 734 Aspen Rd. Pickering, On. L1V 4H2. I also appreciate very much his help by continuing to mail the newsletter.

What's New

in Postal Stationery

Envelopes

I just received a report by E-mail from Pierre Gauthier that he got the following information from Gus Knierim:

The 46 cent size # 10 envelope with the "Great Crested Flycatcher" is now out in three versions:

- 1) December 28, 1998 release crossback seem pointed flap.
- 2) May 1, 1999 release sideseem, square flap.
- 3) ?? 1999 release as 2), but there is a difference in colouring of the "46". The initial printing of the first 2 envelopes had the "46" in a greenish blue so you could hardly see it, while the value in type 3 is white (without colour).

The value in the size #8 envelope is yellow and easy to read, so therefore probably will not be changed.

Type 3. Value "46" with white background

Cards

Collectors across the country continue to find new views on prepaid "Postcard Factory" products.

A call to the National Philatelic Center in Antigonish yesterday had the same result as before "We only have the 35 viewcards and the 5 bird of Canada cards and we do not know of any others"

Robert Lemire is so nice and collects any cards newly discovered by collectors across the country and distributes them to anyone who wants them.

Following I am listing the code numbers on the lower right of the prepaid "Postcard Factory" cards reported so far.

Please let me know, if anyone has cards not listed below.

Most of these 83 cards (each with a different view) appeared in all black printing on the address side and also in all brown printing on the address side.

To simplify the listing I marked cards in black printing with the character • and cards in brown •

All the above cards have the printing identification "The Postcard Factory" on the address side.

The 5 "Birds of Canada" cards (available at the National Philatelic Center) do not show the name of the printer.

Four prepaid cards for the Pan Am Games were issued July 12 and sold only in Winnipeg. When I called the Philatelic Center for these cards, they did not know anything about them. The printer of these cards seems to be the same as the one of the "Birds of Canada"

cards (not the PCF cards).

The indicia of these cards is similar to the Pan Am games stamps.

I just received the latest "Collections" (fall 1999) and now these 4 cards are available at the Philatelic Center. A bit late for the Pan Am games I would say.

In the latest "Details" issued by Canada Post is a prepaid card listed to be issued September 3, 1999 to commemorate the Francophone Summit to be held in Moncton, New Brunswick. The indicia looks similar to a stamp issued in 1995 on the same subject. The printer is named as "Lowe Martin Group" and the quantity printed is given as 5,000 cards.

Xpresspost

All prepaid Xpresspost envelopes now have the numbers 1 to 12 in a circle with one number missing, to show the month in which the printing was done and the center shows the last two digits of the year. (See below)

I already noticed a few different dates. Has anyone a list on different dates on all Xpresspost items?

In the magazine for post office employees I noticed an article with the heading "Xpresspost rockets to new heights" in which was the following paragraph:

...Now those large volume commercial customers who want their logo front and centre on Xpresspost prepaid envelopes can add them, thanks to a Brand-It program started this May. ...

Does that mean plenty of special order Xpresspost items? Everybody please on the lookout!

Priority Courier

The two regular size letters also now have the printing date in a circle the same as the Xpresspost, but I have not seen it on the pack size yet.

A printing error is on the regional letter IE/o1866 41-016-249 (08-98) without the 10 in the 98 circle.

When I bought this item in a postal outlet I asked why they did not use the scanner on the bar code to read the price. There I found out all of these prepaid letters had the bar code 63491 00093 5 of the <u>national</u> letters by mistake. It should be ...00094 2. I wonder how many people paid too much for this item.

Photo mailer

a new prepaid photo mailer was reduced in size from 220 x 209 mm to 203 x 205 mm and the new Canada Post logo replaced the old "MAIL POSTE" logo. I have not seen a redesigned CD mailer yet.

GO letters

John Grace reports a Go Letter used by the Ontario Universities Application Centre, Guelph, ON. with a late hidden date 501686 -03/99. The date may indicate one of the last printings before the envelopes were suppressed and replaced by GO stickers.

The prepaid mailing labels are now being phased in as

the stock of GO envelopes are depleted. The labels are self-adhesive on a wax paper backing. With the change to labels, is it still postal stationery? Chris Ryon reports that he got in touch with a sales representative of Canada Post who processes the order for prepaid mailing labels and he learned that only the Regional version is available (product code 1825). The National version did not even have a product code yet and they did not know when or even if such labels would be produced.

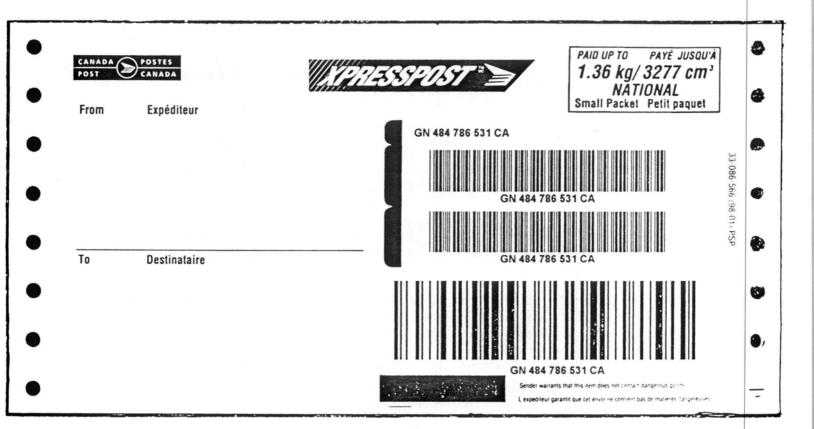

sky pak

So far I only found a new printing of the "sky pak" on the letter size for use to the United States. It is easy to spot, because it has the new "CANADA POST" logo in large size on the front. The back now also has the new logo replacing the old "MAIL POSTE" logo. Also changed is the Customer service number and the text on the sealing strip with the word "slowly" added and now in English and French.

Below, a prepaid REGIONAL GO label for small packets up to 1.36 kg/ 3277 cm. The band with the word "XPRESSPOST" and the CPC logo is in red. The size of the labels is 82 x 57 mm with rounded corners. Beside the illustration is a similar label, also with "XPRESSPOST" in red, but with a prepaid permit. It probably was used for bulk mailing. Below the two labels is a copy of a prepaid "XPRESSPOST" label for large users of parcels. (50 labels at a time is the minimum to be purchased). The "paid" indicia is very similar to the "GO" label indicia. Earle Covert wrote extensively about these items in Topics Vol. 56 No. 1.

I just received all the material which was sent to Steven Whitcombe from members to be published in the newsletter. He had sent it by priority mail and I received the package 10 days later. I think, regular mail went faster in the olden days.

Anyway following are some of the articles in the lot, I think, are very much of interest to be shared with the members.

I hope it's not too late:

BNAPEX '99 is 16 - 18 September 1999 in Vernon, beautiful British Columbia in the Best Western Vernon Lodge.

The Postal Stationery study group meeting is on Friday 17th at 11:30.

Regulations for the address side of the one cent Post Card

Horace W. Harrison

The two interesting photo copies on the following pages of the regulations for the address side of the one cent post card in the year 1871 came from the vast pile of material which was in Allan Steinharts library.

As for the National Bank Note Co. Essay.

The National Bank Note Co. was bought out or merged with American Bank Note Co. In the 1870's or 1880's and acquired all their dies etc. So attributing the design to National is correct, as it is close to a design National did for the U.S.A. before the merger and probably was part of an earlier bid by National for a Canada Post Office Department contract - unsuccessful of course.

The heading is not identical, as the type face for the text "THE ADDRESS TO BE WRITTEN ON THIS SIDE." is completely different and the two side ornaments on the ends were also removed.

POST OFFICE DEPARTMENT

Ottawa, 1st June, 1871.

DEPARTMENT ORDER NO. 7.

POST CARDS

Under the authority of the Post Office Act 1867, Canada Post Cards bearing an impressed stump of one cent, and issued for sale to the public by this Department at one cent each, shall be, and shall be deemed to be, mailable matter within the meaning of the said Act, and shall pass as such throughout the Dominion without further charge for delivery from any post office or way office, subject to the following conditions:-

- l. The front or stamped side of the card is to be used for the address only, there must be nothing else either written or printed upon it.
- 2. On the other or reverse side, any communication whether of the nature of a letter or otherwise, may be written or printed. Nothing whatever may be attached to the card nor may it be folded, cut, or otherwise altered.
- 3. There must be no words, marks or designs, written, printed, or otherwise placed on the cards of an obscene, indecent, immoral, libellous or grossly offensive character.
 - 4. No Post Card can be posted a second time.

If a Post Sard be posted which infringes any of the above conditions, it is to be forwarded by first post under cover to the Postmaster Ceneral.

As respects port marking on the face of the card and cancelling the impressed Stamp, a Post Card is to be treated as a letter.

A Post Card may be Registered under the same Regulations as a Letter, if the Registration charge be prepaid by affixing an ordinary two cent Postage Stamp.

Post Cards will be issued to Postmasters for sale to the public at one cent each, and are to be applied for and accounted for in the same manner with Postage Stamps.

When Post Cards are included in the mails, the value represented by the impressed stamp is to be counted in with other postage prepaid by stamps, in the Letter Bill columns.

NOTICE TO THE PUBLIC.

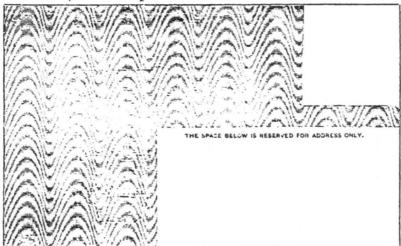

Regulations under which designs, illustrations, portraits, sketches or other forms of advertisement may be engraved, lithographed, printed, &c., on the "address" side of the one-cent Post Card.

1. A clear space of, at least, a quarter of an inch shall be left along each of the four sides of the Postage Stamp.

2. There shall be reserved for the address a clear space at the lower right hand corner on the "address" side of the card immediately below the words, "The space below is reserved for address only," such space so reserved for the address being, at least, $3\frac{1}{4}$ inches long by $1\frac{1}{2}$ inches wide.

N.B.—It is in the interest of both the Department and those availing themselves of the privilege hereby granted that the spaces in question should be unconditionally reserved for the purposes intended. If any printing, engraving, or other matter appears on the spaces thus reserved, the Post Cards cannot be permitted to pass through the mails.

Below is given a diagram which shows the actual size of the card and the reservations in question, the unshaded portions of the diagram indicating the spaces reserved by the Department.

Post Cards may be ordered in sheets of sixteen or less, as desired, or singly,—orders therefor, specifying quantity of cards required and number to the sheet to be given in writing to the nearest Postmaster.

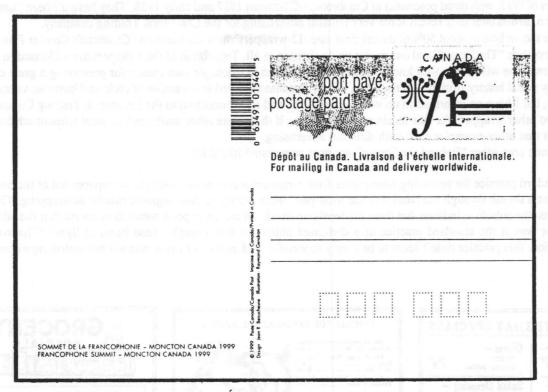

R. M. COULTER.

Post Office Department, Canada, Ottawa, 9th December, 1897. Deputy Postmaster General.

NOTICE TO POSTMASTERS.—This Notice to be put up conspicuously for public observation at every Post Office.

The Francophonie Post Card

These photocopies show the new post card issued September 3 for the Francophone Summit in Moncton, New Brunswick, mentioned on page 18 of this Newsletter. Reproduction at 80%

Cranbrook Trading Company Wrapper Advertisement

Michael Sagar

I purchased these 14 different wrappers from a local dealer about a year ago. From the front they look like normal used examples of W13, with dated postmarks of Cranbrook, BC between 1927 and early 1928. They have all been "unstuck" and when turned over they reveal some very unusual advertising for the Cranbrook Trading company.

They are shown here at about 50% of the original size. 12 wrappers show the notation "Cranbrook Courier Print" and two the notation "The Herald" and one carries no destination at all. Two-thirds of the wrappers are addressed to "Mrs. C.B. Garret" the wife of the well known philatelist of that era to whom we owe thanks for preserving a great deal of Kootenay postal history from this period. Mr. Garret was also involved in a number of civic and business ventures in the area, but I have no information on whether or not he had any connection to the Cranbrook Trading Company. I have no other wrappers for this locale and era to know if there were other mailings that went without advertising. I suspect that other examples exist with different advertising.

Has anyone seen other "Behind the Scenes" wrapper advertising like this?

The standard practice for removing newspapers from wrappers was to either slide the newspaper out of the band, or to run one's thumb through the band. For the most part, these examples show signs of careful unwrapping. There is nothing on the outside to indicate that there is advertising inside. Were the paper's subscribers aware that the ads were there, or was it the standard practice of a dedicated philatelist that brought these items to light? Whatever the explanation, this practice didn't seem to be overly successful, and as far as I know was not attempted anywhere else.
