Volume 21 No. 3

July 2006

## A study in the 1 cent Red Edward Postcard P-23

by Louis Fontaine BNPS member - R6270

You do not often see varieties listed in postal stationery references so out of curiosity I decided to go through some P-23 1 cent Red Edward cut squares that I had in a glassine envelope. Was I surprised at what I found. There are shades varying from Pale Red to Carmine to Deep Rose. Some of these cut squares probably came from private order cards. The text behind the stamp sometimes indicated it was a railroad use type postcard.

There are also numerous flaws, some major and others minor. I believe most of these flaws are caused by foreign matter getting onto the plates during printing. I decided to mention 10 of the best. Most of the time a magnifier is required. I will note them in sequence.

1. A triangular shaped mole in center of forehead.

2. Doubling at bottom outer frame line.

3. Broken outer frame line at top and horizontal shading lines running into the hair near top of head

4. Broken inner frame line to left of "A" in Canada next to outer frame line.

5. Large gash to right of Kings ear.

6. Broken outer frame line at top above "O" of "POSTAGE"

7. White mole to right of Kings ear.

8. Broken frame line in left value square at bottom.

9. As #5 but smaller gash to right of Kings ear.

10. Curved line Re-Entry in upper right corner on outer frame line.

Shade progression.

Inquiries may be directed to my email – [lfontaine@shaw.ca](mailto:lfontaine@shaw.ca) or Phone (306) 382-7216 or write Louis Fontaine, 86 Morris Drive, Saskatoon, SK S7L 3V2

*Editor's Notes,*

On the first two pages of this issue we bring a study of the red 1¢ Edward prepaid postcards minor and major printing flaws. The study was done by BNAPS member Louis Fontaine, not an expert in postal stationery, as he claims, and not a Pos1919191923tal Stationery Study Group member, but I think he did some very interesting research on this subject and it would be great to see our members to continue this research and send in printing flaws from other postal stationery items to be published in PSN.

Also included in this issue of PSN, as a special supplement of 12 pages, is a draft of "Webb's catalogue section for the listing of the "Canadian Postage-Prepaid Postcard Factory cards" by Robert Lemire. I think he did an outstanding job.

~~~~~

# What's New

## in Postal Stationery

### ENVELOPES

A new date was reported by Pierre Gauthier on the size #10 Scarlet Tanager envelope. It is "2006.01.13".

\*\*\*

Another report of additional hidden numbers inside prestamped envelopes issued 1994 to 2000 was made by Andrew R. Basar.

In his collection he found the following numbers:

- 43¢ Yellowknife (EN142) # 9 and # 10
- 45¢ Wine Route (EN172) # 12

Andrew also found some of these envelopes without hidden numbers, but I had not listed any envelopes of that area without numbers, because it may just have been a cutting error, the numbers may have been removed

with the waste, or a printing error with the ink being too weak to notice.

I suggest to add the above newly discovered envelopes to the list of dates and hidden numbers in PSN Volume 21 Number 1.

### CARDS

Four postage-paid postcards honouring Canadians in Hollywood were issued showing Canadian born actress Fay Wray, John Candy, Mary Pickford and Lorne Greene. The stamp impression and the reverse have the same design as the postage stamps issued at the same date (May 26, 2006) but without value showing.

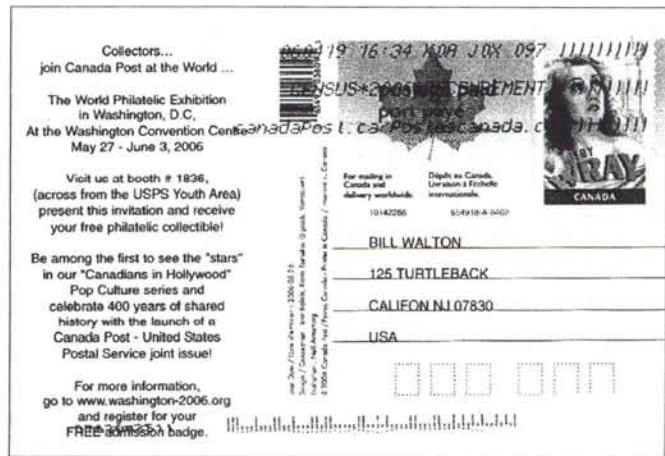

The National Philatelic Centre order numbers for these cards are: John Candy 262146, Mary Pickford 262147, Lorne Greene 262145, and Fay Wray 262144.

Each card has a printed date on the stamp imprinted side: "Issue Date / Date d'émission : 2006.05.26"

But it looks like some of the Fay Wray cards were used earlier than the issue date by Canada Post as special mailings to U.S. customers on the Canada Post mailing list. Robert Lemire sent me the following note on April 24, 2006:

"Two days ago Bill Walton received a Fay Wray card from Canada Post, with a printed message promoting Washington 2006 and Canada Post's participation in it. It may turn out that this went to Northeastern US names on the Canada Post mailing list, but time will tell if this is true, and whether any other cards were used."

Any other lucky U.S. members got this card?

Two postage-paid postcards are issued on June 28, 2006 to mark the 35-year anniversary of the Snowbirds Demonstration Team. Four postage stamps and a souvenir sheet also are being issued at that date, but only two different postcards are available in the same design as on two of the stamps, but without value showing.

National Philatelic Centre order numbers are:

Snowbirds (Pilot) 262153

Snowbirds in Motion 262154

And the latest I received :

According to the latest CP "Details", Canada Post will be issuing a series of four prepaid "Duck Decoys" postcards, similar in design to four postage stamps and a souvenir sheet to be issued on August 3.

"Duck Decoys" order numbers are:

Blue 262149, Yellow 262150, Orange 262151 and Green 262152.

**DUES:** Postal Stationery Study Group dues are Can. \$8.00 or equivalent per volume of six issues.

Dues are now payable if you mailing label reads V21#1. Please renew soon and make your remittance payable to 'JOHN GRACE' not to BNAPS or the Postal Stationery Study Group.

Dues or any change of mailing address should be sent to the Sec./ Treasurer John Grace, 734 Aspen Rd. Pickering, On. L1V 4H2. E-mail [jandmGrace@sympatico.ca](mailto:jandmGrace@sympatico.ca)

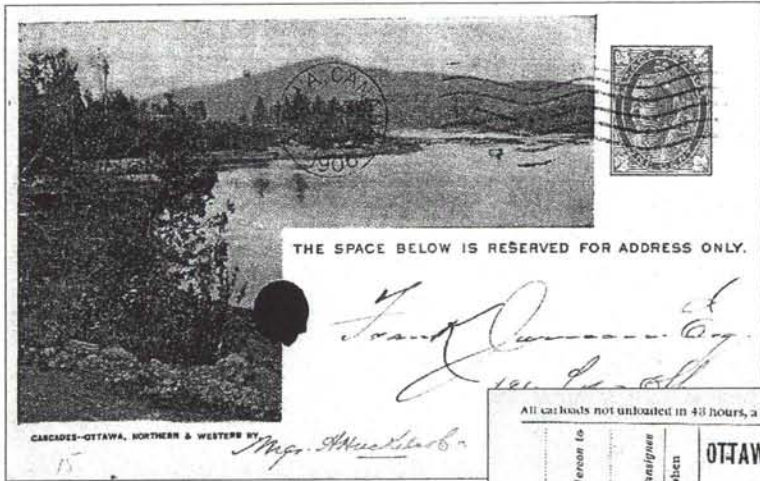

All information for the newsletter, and correspondence about the study group, should be addressed to Dick Staecker, 384 Regal Drive, London, On. Canada N5Y 1J7, phone (519) 455-9715, E-mail may be sent to [dstaecker@rogers.com](mailto:dstaecker@rogers.com)

The scan below of a newly discovered private order envelope was sent in by Art Klass.

It is a 2¢ Red, like EN 505-30, with a window on cream wove paper. The corner cut reads "RETURN TO/ OFFICE OF THE CITY ASSESSOR/ AND TAX COLLECTOR/ SASKATOON, SASK." It is postmarked May 29, 1933. Since this is the first report, it will probably be assigned a Webb number in the next edition.

Two unreported cards,  
sent in by Pierre Gauthier.

ONW?, same scene as OGR1,  
ONW2 & ONW5. Caption reads as  
follows in black: "CASCADES --

OTTAWA, NORTHERN &  
WESTERN RY."

Card is on P18, cancelled Ottawa  
October 30, 1906. Form number s:  
"Form 8-M.CO - 2000-10.01".

Card seems to have rounded corners.

All car loads not unloaded in 48 hours, a charge will be made for detention and use of tracks of one dollar per day  
Form 8-M.CO - 2000-10.01

OTTAWA, NORTHERN & WESTERN RY. CO. — FREIGHT NOTICE.

Mr. J. Jansen  
Dear Sir.—There has been received to your address the following freights:

| ARTICLES. | WEIGHT. | CHARGES. |

A scan (also sent in by Pierre Gauthier) of the front and part back of a EN107 (no. 8 )envelope missing brown color (like EN107d which is the same error but on a no. 10 envelope). Only the color markings are shown for the back of the envelope. The envelope shows a tag.

FORM 135  
 COLUMBIA & RED MOUNTAIN RAILWAY.  
 RED MOUNTAIN RAILWAY.  
 NELSON & FORT SHEPPARD RAILWAY.

To: *Nelson 1890*

You have been overcharged \$ *1.40* in freight charges on shipment of *books* from *Nelson* delivered to you (or connecting line) on *May 10 1890* covered by my Expense Bill pro No. *34* calling for \$ *1.70*

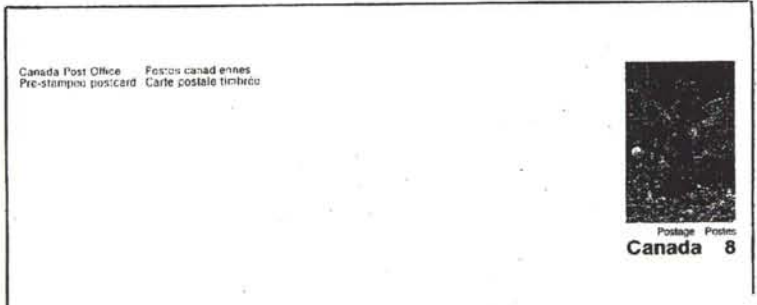

Please sign and detach annexed coupon, pin to original paid freight bill, and mail to me. On receipt, the aforesaid amount of overcharge will be promptly refunded to you.

*May 10 1890* *M. Taeroban* Agent  
*Nelson* Station.

IMPORTANT.— If refund is not received within reasonable time after mailing coupon and freight bill, notify Auditor, C. & R. M., R. M. and N. & F. S. Railways, Spokane, Washington, referring to \_\_\_\_\_ Station No. \_\_\_\_\_ Auditor's No. \_\_\_\_\_

The front and back scan of the card above comes from a BNAPS member as part of a larger article. The use of a perforated card as a receipt is not all that unusual, though seldom this early, but I don't remember seeing advice cards of any sort from this railway before.

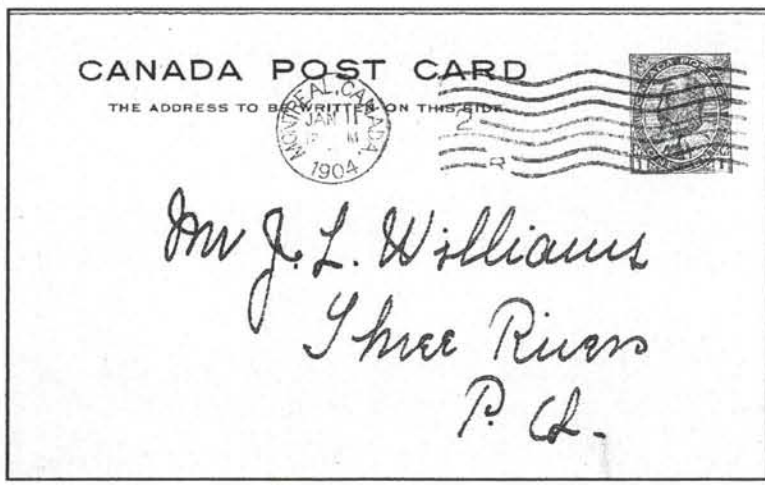

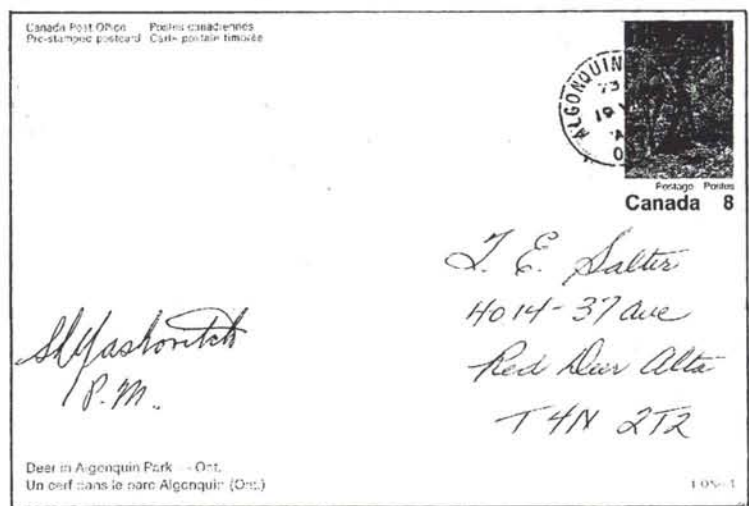

Has anyone seen any other cards from this company?

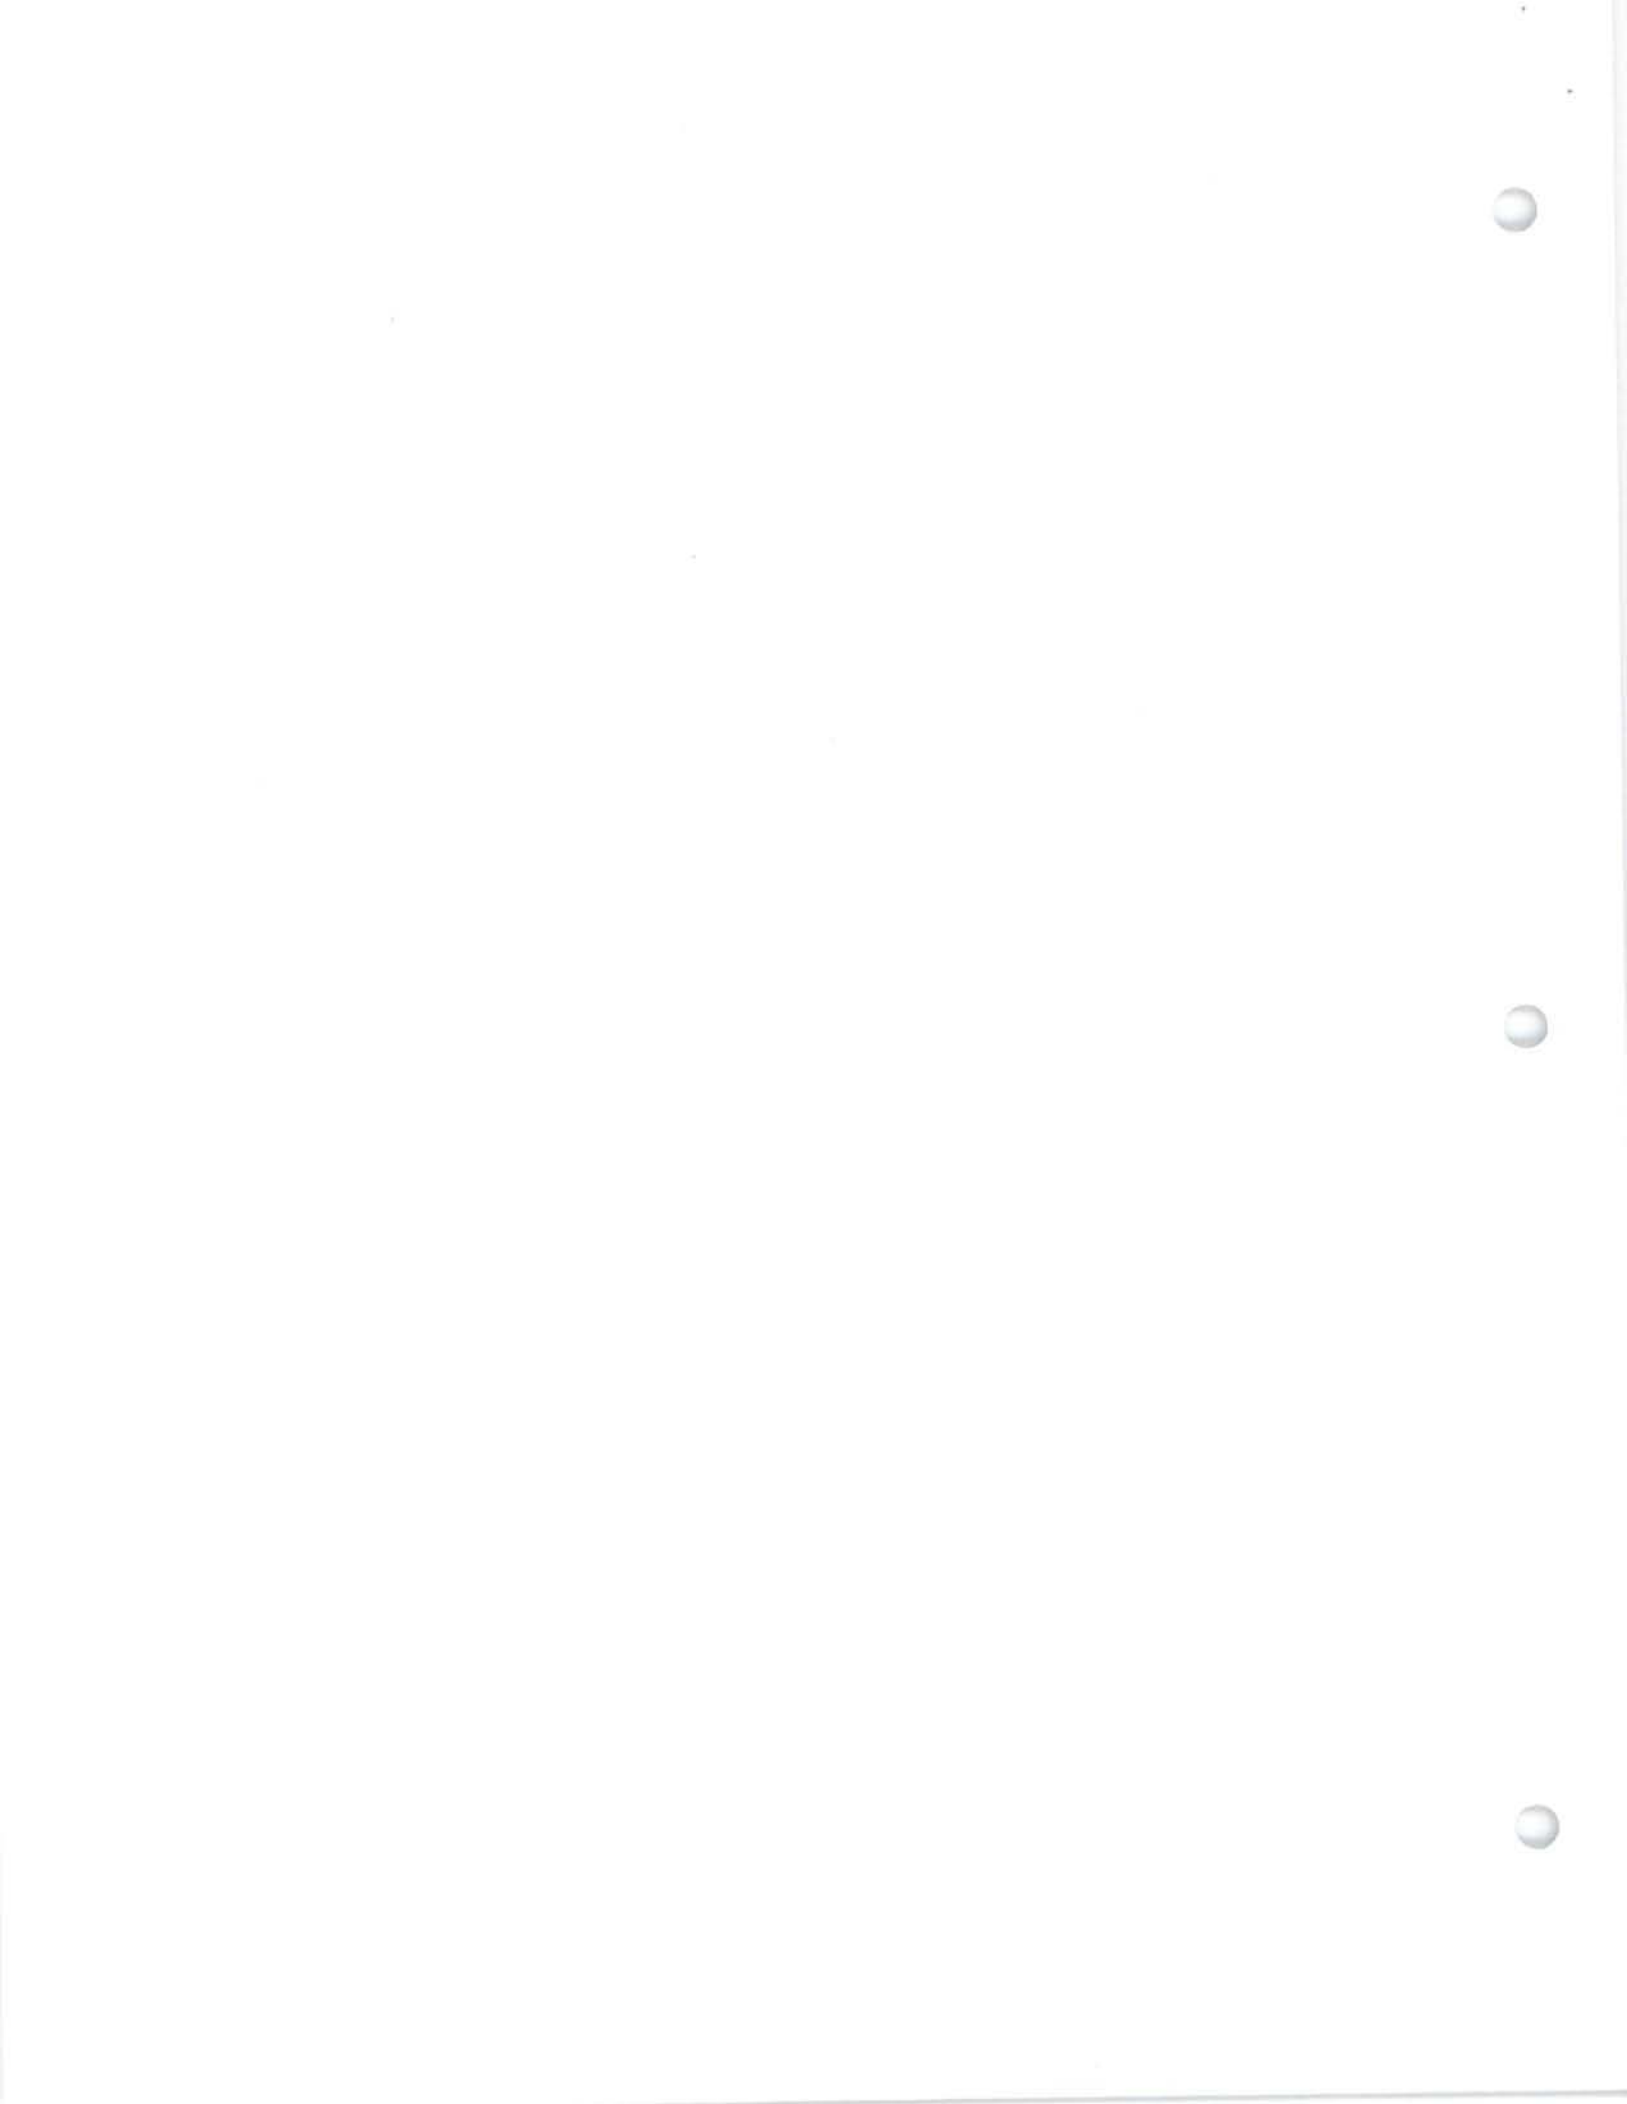

There is a strong downward shift of the stamp impression and all text on this 1972 view card, therefore all description on the lower section is completely missing. (See card at left) Peter Zariwny says that he must have handled a thousand of these cards and

that this is the first abnormal one he found of these view cards.

(a used regular card is at right)

This interesting souvenir is on a 1¢ green King Edward prepaid postcard and was used in 1904.

## A Draft Catalogue Section for the listing of the Canadian Postage-Prepaid Postcard Factory® Cards

The following is an up-to-date listing of the postage-prepaid cards prepared by the Postcard® Factory. This listing may look complicated, but is probably as simple as possible for use in auction catalogues, *etc.* Each card is distinguishable by number, and all known major printing varieties are listed. Three basic card types are distinguished.

### Type 1 cards

- have a white border;
- have the very small maple leaf logo printed on the stamp side of the card;
- have a *printed* bar code ends in 00025 (for the “sticker” cards, this printed bar code is covered by a bar code sticker).

### Type 2 cards

- have a white border;
- have the larger maple leaf logo printed on the stamp side of the card;
- have printed bar codes that are individualized as noted in brackets, [xxxxx].

### Type 3 cards

- have borderless pictures;
- have the larger maple leaf logo printed on the stamp side of the card;
- have bar codes that are individualized as noted in brackets, [xxxxx].

At present, three “small flag” indicium dies have been distinguished

- **1995 flag, die I:** The original small flag die used for cards issued through 2004 (16½ × 21 mm);
- **1995 flag, die II:** The small flag die introduced in 2005, the same size as the original, but with a modified background, tagging pattern and gauge for the pseudoperforations (16½ × 21 mm);
- **1995 flag, die III:** The small flag die introduced in 2005, but smaller than dies I and II, and otherwise essentially identical to the “1995 flag, die II” (14½ × 18½ mm).

There are two other indicia

- **1965 flag**
- **leaf**

All of these indicia are shown on the next page.

**1995 flag, die I**

**1995 flag, die II**

**1995 flag, die III**

**1965 flag**

**maple leaf**

## bar codes

**Common bar code ending in 00025  
as used on all the early printings.**

**Individualized bar code ending in xxxxx,  
in this case 60048 on CR068.**

An example. The catalogue numbers for the “beaver” cards are:

|                        |                                                                                             |
|------------------------|---------------------------------------------------------------------------------------------|
| <b>PCF-T1A-C42V</b>    | original printing with white borders, black back;                                           |
| <b>PCF-T1B-C42V</b>    | original printing with white borders, brown back;                                           |
| <b>PCF-T1As-C42V</b>   | original printing with white borders, black back,<br>individualized bar-code sticker;       |
| <b>PCF-T2A-C42V</b>    | printing with white borders, individualized bar code, 1995<br>small flag indicium;          |
| <b>PCF-T3A-C42V</b>    | printed without borders, 1995 small flag indicium;                                          |
| <b>PCF-T3A-C42V</b>    | printed without borders, leaf indicium, no printed SKU#;                                    |
| <b>PCF-T3D-C42V(a)</b> | printed without borders, leaf indicium, with printed SKU#;                                  |
| <b>PCF-T3E-C42V</b>    | printed without borders, 2005 small flag indicium, regular-<br>size die, with printed SKU#. |

Dates are provided for the initial appearance of the views, and for the appearance of major varieties. The bar-code stickers (Types PCF-1As and PCF-2As) and the white-border cards with individualized bar codes (Type PCF-2A) were mainly introduced in 2000. A few cards of Type PCF-2A may have been issued as late as 2003 or 2004, but at least in some cases it is also possible that these cards were printed in 2000 or 2001, and that they were not quickly distributed. The “1965 flag”-indiciu cards were first found in March 2005, but may have been printed slightly earlier. The “leaf”-indiciu cards were first found in December 2004. It is unlikely that they were available prior to late November 2004, and certainly were not available on cards with certain views until the second half of 2005. Regardless, the later printings with the “leaf” indicium were almost certainly done after the last of the known “1965 flag” printings.

Boxes have been left to allow prices to be added (if desirable at some stage). Where the item has not been reported, the box is shaded.

**TYPE I (SMALL EMBLEM, BORDER ON PICTURE)**

| PCF Code Number | Description (year view released)<br><br>None in Type I have a printed SKU# | 1995 Flag (die I)                 |                      |                                                    |                              |
|-----------------|----------------------------------------------------------------------------|-----------------------------------|----------------------|----------------------------------------------------|------------------------------|
|                 |                                                                            | ALL PRINTED BARCODES END IN 00025 |                      | WITH STICKER SHOWING NEW BAR CODE (INDIVIDUALIZED) |                              |
|                 |                                                                            | (PCF-T1A) black-back              | (PCF-T1B) brown-back | (PCF-T1As) black-back as T1A                       | (PCF-T1Bs) brown-back as T1B |

|         |                                              |  |  |  |  |
