QUEBEC REGISTRATIONS "The Beavers"

My idea is to approach classification with paper types as the first level which might allow for some cross-referencing to the small Queens up to about 1880 or so. In this respect I am in need of reference material, and any correspondence on this subject would be greatly appreciated.

While there were some nice items in the sale Fred did not have very many of the rarities. Actually he was very weak in the Provincial issues. In the Excise area he had many multiples and more than a few items that came to light for the first time. Apparently he had hung on to all unique or next to unique items.

Overall the sale had plenty of bargains but some lots brought very good prices.

In the Dec. and Jan. Newsletter Clay Rubec's study of the Perfins on Canadian Revenues. Clay has revised and updated this.

Anyone desiring this revised study should write Clay for a copy.
