THE MAJOR ERROR

This booklet pane was miscut, showing label-stamp-label across the top row rather than label-label-stamp.

It is once again time to submit membership dues for 1987. Our fees will be \$5 Canadian and \$5 (U.S.) for our American members. My bank is now charging \$1.50 to cash a foreign cheque and this soon negates any difference between the currencies.

This newsletter is being devoted to booklets. On the first page is entire booklet of the 6¢ orange showing the rare miscut pane. Only two complete panes have been reported. Peter Lehman and Fred Toulch have sent in examples of shifted perforations on the 25¢ booklets shown below.

John Aitken, Bill McCann and Bill Muttera have sent in examples of new levels of fluorescence on booklet stamps based on the listings of the second edition of "Canada, The 1967-73 Definitive Issue". On the next few pages are shown the charts of the booklet panes we probably have the most chance of finding additional levels of fluorescence. WE NEED YOUR HELP IN FINDING THESE NEW FLUORESCENCE LEVELS.

I am still looking for my first reply to some of the inquiries posed in the last newsletter.

A COUPLE OF NEW PANES TO REPORT ON
HERE. DOES THE 5c BLUE PANE HAVE
A HIGHER LEVEL OF FLUORESCENCE THAN
A "2"? ANY OTHER NEW FLUORESCENCES
ON THE 1c OR 4c PANES? HOW ABOUT
A MINT EXAMPLE OF OUR NEW 4c?

ANY FLUORESCENCE LEVELS OVER A "1" ON ANY OF THESE BOOKLETS. THERE HAVE BEEN REPORTS OF A HIGH FLUORESCENCE OR EVEN A HIBRITE ON THE 6¢ ORANGE, \$1.50 BOOKLET LISTED IN TABLE 43.
