Congratulations Greg Redner

The Royal Philatelic Society of Canada Board of Directors has announced the appointment of Greg Redner (a fellow BNAPS member) as Vice President, replacing Ken Lemke. While Greg began collecting at the age of eight his interest in Canadian philately started in his teens when he focused on the stamps of Newfoundland. Over the past 25 years, Gregg has also developed a special interest in the stamp issues of Belgium, especially the 1919 – 1921 issues. Recently he gave a Zoom presentation to the Philatelic Specialists Society of Canada, entitled *Philatelic Exposition Special Printing: Belgium's First Montenez Issue 1921*. I was fortunate to be at this meeting to see and hear his presentation. I am delighted to be able to share a link to this presentation so that you may also enjoy it. <https://www.youtube.com/watch?v=GB5eLNfifB0>

In his non-philatelic life Gregg is the Director of Music at Metropolitan United Church in London, Ont., and Assistant Professor of Music at the University of Western Ontario. Originally from New York City, Gregg holds three degrees from the Juilliard School in organ and harpsichord and a PhD in Modern Languages from Exeter University in the UK.

He is also a member of the RPSC, APS, RPSL, AAPE, CCNY, Sports Philatelists International and The Philatelic Specialists Society of Canada. He is a Board Member of both the Auxiliary Markings Club and Sports Philatelists International.

Gregg has exhibited both nationally and internationally. In addition, his articles have appeared in several philatelic journals including *The Canadian Philatelist*, *The Philatelic Exhibitor*, *The Philatelic Literature Review*, *The Journal of Sports Philately*, *Topical Times* and *The American Philatelist*.

Congratulations Gregg on this new adventure.

Calgary – A Philatelic Richness

The Calgary Regional Group of BNAPS is the oldest such group in the society, meeting monthly since 1956. Until the pandemic, the group met in various boardrooms or members' houses. Since then, and for the foreseeable future, meetings are on Zoom on second Wednesdays. The Zoom meetings are open to all BNAPSers, not just Calgarians. If you would like to be put on the notification list, contact dave.bartlet@shaw.ca

The Calgary Philatelic Society celebrated its centennial in 2022. Dale Speirs wrote a 222-page book on the history of organized philately in Calgary from 1922 to 2022. Included are sections on the history of the Calgary Regional Group and the BNAPEXes hosted in the city. The book is available as a free pdf at: <https://calgaryphilatelicsociety.com/app/uploads/2022/12/Calgary-Philatelic-Society-to-2022.pdf>

The Society's homepage is: <https://calgaryphilatelicsociety.com/> Visit and explore. You can find past issues of the *Calgary Philatelist* (the most recent two years are reserved for members of the Calgary Philatelic Society),

Aviation Safety Network – Attention Crash Cover Collectors

At a recent meeting of the Thursday Zoom Coffee Hour of the West Toronto Stamp Club Arnie Janson mentioned the Aviation Safety Network website as a source for researching aircraft crashes. Among its other features it contains two databases.

The ASN Accident Database: “The ASN Safety Database, updated daily, contains descriptions of over airliner, military transport category aircraft and corporate jet aircraft safety occurrences since 1919. Airliners are considered here aircraft that are capable of carrying at least 12 passengers.”

And Wikibase: “Worldwide accidents and incidents involving aircraft, balloons, gliders, gyroplanes, helicopters, ultralights, UAV's and zeppelins/airships since 1905.”

Date	Aircraft	Registration	Operator	Fatalities	Location	Phase
06-FEB-2023	Boeing 737-3H4 (WL)	N619SW	Coulson Aviation	0	Fitzgerald River National Park, WA	w/o
02-FEB-2023	Cessna 208B Grand Caravan	5Y-BMZ	Unknown	1	Nasir Airport	dst
27-JAN-2023	Let L-410UVP	EY-473	Fly Air Africa Aviation	0	NW of Juba Airport (JUB)	w/o
18-JAN-2023	Beech B200 King Air	N200EJ	Edwards Jet Center	0	Poplar Municipal Airport, MT	sub

Each database offers a slightly different way for searches. Pictured below is a screenshot of the search opportunities for the Wikibase database. To illustrate what kind of information you might find in this database. I searched the accident that took place in Toronto harbour on 20 June 1941, when a plane taking off from Toronto Island Airport collided with a ferryboat killing both the student pilot and his instructor. The screenshot below is the information I found related to that accident. Here is the link to the database:

Date: 20-JUN-1941

Time:

Type: Northrop N-3PB Nomad

Owner/operator: Marinens Flyvevåpen (Norway)

Registration: 307

MSN:

Fatalities: Fatalities: 2 / Occupants: 2

Other fatalities: 0

Aircraft damage: Written off (damaged beyond repair)

Location: Toronto Harbour, ON - [Canada](#)

Phase: Take off

Nature: Military

Departure airport: Toronto Island Airport, ON

Destination airport:

Narrative:
Northrop N-3PB floatplane #307 of Little Norway operating out of Toronto Island Airport, was taking off from the water on Toronto Harbour. The ferry Sam McBride, travelling from the main land to Toronto Island, sailed directly in front of the floatplane. The aircraft failed to gain enough altitude to clear the ferry and struck the upper deck and smoke stack. The Nomad crashed into the Harbour killing Norwegian instructor Lt Finn Kjos and student Tron Harsvik. No one on the ferry was injured.
