CANADIAN FLAG CANCELLATION BULLETIN

AUGUST 1978

SUPPLEMENT to the FLAG HANDBOOK

SECTION D

The MODERN PERIOD - 1937--1953

This issue is devoted almost entirely to additions, revisions, and price changes for Section D of the Canadian Flag Cancel Handbook, with the exception of the chapter on "Philatelic Flags" which were treated in our last issue.

Information found in the Handbook is not intentionally repeated, only new data is incorporated in these notes. However some sections have been completely re-written. Underlined items indicate changes from handbook.

CHAPTER XVII - The GEORGE VI CORONATION FLAGS of 1937

There is not a great deal new to report on this Cancellation, except 1) the Lambeth, Ont. fake; 2) the addition of two towns with the May 16th date; and 3) to bring the chart up to date. At the time of the printing of the Handbook, 119 varieties of Type 50, and 14 of Type 51 had been reported. Today's report shows 134 and 18 respectively for a total of 152 out of a probable 154 that could exist.

New Westminster covers bearing this date - \$10.00
3) Prices shown are for covers dates May 10th and 12th.
For covers dated May 11, 13, 14 and 15 add \$1.00.

Type 50 (Cont:-)

The Lambeth, Ont. Fake. Numerous collectors of Canadian Flag cancellations have shown me, or have reported owning copies of the Type 50 - 1937 Coronation Flag Cancellation from Lambeth, Ont. - a small town not too far distant from London, Ont. All are dated "MY 10 s7" - for the first day of use. The DATER is an OPEN type CIRCULAR HANDSTAMP as shown in the illustration. This is of course the wrong style for use in a machine.

(hand drawn reproduction)

The Flag Cancellation portion is a genuine strike of the LONDON, Ont. Flag, and was applied at London.

The dater was placed some 15mm from the flag staff, and unfortunately this would normally be only 8mm. had it been

genuine.

We will not go into the gory details of how this philatelic abomination was contrived, it should be sufficient that collectors are now warned as to the true nature of the fraud. A rarity it is not, - a contrived novelty it most certainly is!

Type 51 - The FRENCH Version of the 1937 CORONATION Flag

Nothing new has been reported except to complete the chart:-

Type 51	Town	10	11	12	13	14	15	Prices(4)

Not too much new has turned up in Royal Train Cancels, with the exception of the two May 22nd "Hybrid" dater dies, now listed for the first time.

Unfortunately the route map shown in the Handbook was the "INTENDED" route, and dates, but because the arrival of their Royal Highness was delayed by nearly two days, - it does not match the time schedule of the actual route.

A new Route Map is provided herewith, giving the proper time schedules, and a new listing of existing cancels, to replace the one in the Handbook, is now provided:-

WORLD WAR II - ENLIST NOW! Flag Cancels

This issue is a good one for further study, as there seems to be no end to the number of Hub and Die varieties.

Die Varieties- the Handbook lists and illustrates the Hamilton and Vancouver Die varieties. Since then we know that at least Windsor also had more than one die.

Hub Varieties- the Handbook listed two varieties each for Calgary, Hamilton, Ottawa, Toronto, Winnipeg and Montreal, - and three varieties for Vancouver. We now know that there were two varieties used at both Kitchener and London. There is some evidence that Calgary may have used a third, although the difference is very slight.

Types 71-72 ELIZABETH II CORONATION, 1953

We believe these Flags have been neglected by most collectors, at least during the past four years, - as very little has been reported on them. We think they are worthy of more intense study. They were in use twenty-five years ago, and supplies are fast drying up.

When the handbook was published there were 107 varieties of the Type 71 reported, - today's listing shows 116. There were 10 varieties of type 72 reported in the Handbook, one in error, today there are 11.

There have been no new Hub or Die varieties reported since the Handbook was published, and yet we rather expect that these will eventually show up.

OUR CAPEX REPORT

- We were most pleased to see Dave Sessions, Mathew Carstairs and Dr. Charles Hollingsworth all over from Great Britain, all attended the CANCELLATION Seminar on Friday, June 16th.
- Dave Sessions was the only one to enter an exhibit of Flag and early machine cancels. Entered as BNA - Postal History, it was listed as a 3 frame exhibit e= "INTRODUCTION of RAPID CANCELLING MACHINES INTO CANADA" and was further described as "A study of the Imperial and Bickerdike Machine cancellations from introduction in 1896 to replacement in 1902" A fine showing which we enjoyed greatly! Won a Bronze.
- There was plenty of Flag material available among the dealers, but with two exceptions, prices were high. Needless to say those two exceptions were sold out by close of show.
- With Ed Richardson the Prexy, the Texas Phil. Assoc. Lounge became an unofficial Flag Cancel Lounge for several days. Larry Paige was also on hand with many goodies to show you.
- The CANCELLATION Seminar, mentioned earlier, was well attended. Flags dominated the discussion, but Squared Circles, RPOs, Slogans, Territorials, and others were discussed as well. Nearly 50 in attendance. Among the Flag Cancel fans present not previously mentioned were, Ted Kilish, John Siverts, and Rev. John Bain. And where did they come from? - at least 11 states, 7 Provinces, and four countries.
- The days of any one collector or dealer having several shoe boxes of surplus flag cancel covers seems to have come to an end, I can recall when my own surplus was in the order of four shoe boxes jam-packed, - these have long since been gone, and what I have on hand now have been acquired in recent months, - the more common, - at higher prices.
- More on CAPEX '78 in our next issue. We will try to make the report a bit more general, - not limited to Flag Cancel news.
