# PRECANCELS CANADA

THE PERIODIC NEWSLETTER OF THE BNAPS PRECANCEL STUDY GROUP

ISSUE NO. 9 - March 2019

### CHAIRMAN'S MESSAGE

The Precancel Study Group now has almost 100 members. As with all new ventures, the success or failure of the newsletter depends on the inputs of the members. There are many philatelic aspects to discuss. Your thoughts, findings and opinions are of interest to others and I encourage you to drop the editor a note or an article for future editions. With your support, we will try to produce this newsletter twice a year. We are fortunate in that there were millions and millions of copies produced, giving the specialists hoards of material to study and find those illusive printing results. Unlike ordinary stamps, the printing variations are reasonably available, many with the naked eye. Further, the over-printing was often done by those whose skills and equipment were not of the same standards as that performed by regular printers. This generated many variations of printing results, only some of which have been identified and documented. All in all, while the study of precancels has been on-going for many years, there remains much to be discovered and recorded. For those of you who have already embarked on the precancel road, you are able to capitalize on accumulated knowledge and experience of others. Can I suggest that you continue in your collecting and knowledge of this entertaining area? The rewards will be worth the effort.

### **EDITOR'S MESSAGE**

Greetings to all Canadian Precancel enthusiasts from sunny British Columbia.

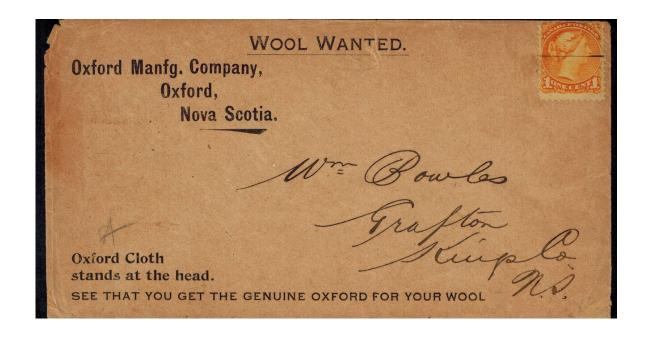

Winter will be soon coming to an end, or at least we hope it will. So, in order to encourage spring's arrival and to cheer you all, this newsletter will present a display of covers from the Bruce Field collection. As you may know, Bruce was a long time Precancel collector who recently passed away at the age of 86. He was also a co-editor of the Canadian Precancel Catalogue. His assistance and participation in philately will be missed by all those who knew him.

Postal history has become very popular amongst collectors in recent years but it seems that covers have not caught on amongst precancel collectors to the same extent as philatelists generally. So in order to encourage this aspect of the hobby this edition of the newsletter will present some interesting precancel covers. Perhaps you might like to devote more space in your collection to them in future?

I hope you all enjoy looking at these and don't forget that we need to have some contributions from our members in order to keep the newsletter going. Write an article, send some information, an image of some interesting item or whatever you think others might like to see and read about.

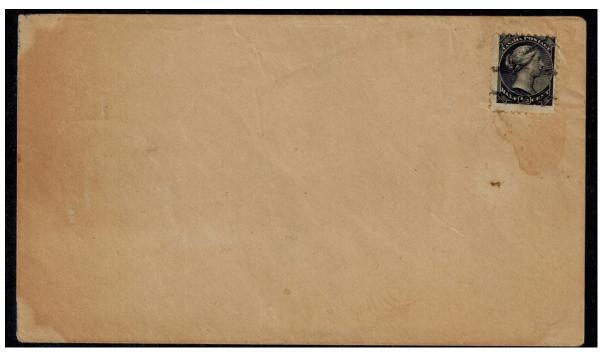

It's up to you!

Postmasters were using unofficially precancelled stamps on mail as early as 1875, but Postmasters improperly continued this practice even later when precancelled stamps were readily available. On this cover the 1 cent small queen was cancelled prior to being affixed to the envelope using pen and ink. There is a transit backstamp from Kentville N.S. / My7 / 95.

## To Every Householder:

An unaddressed envelope posted for local delivery at a rate of ½¢ each.

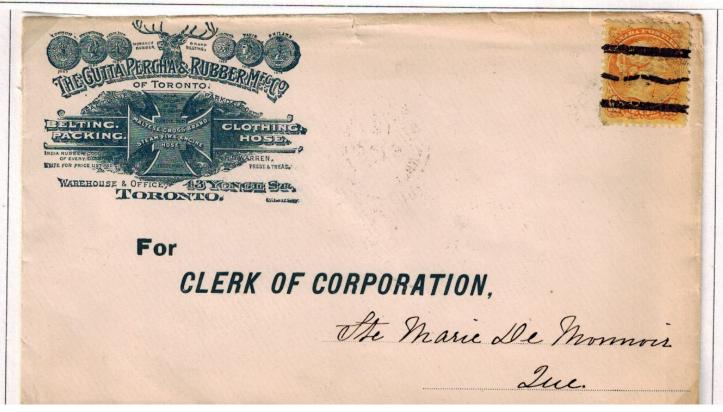

Type J roller precancelling pair of ½¢ small queens on cover to Easthampton Mass, USA with 1896 backstamp.

## Two early advertising covers.

These can spruce up a collection quite nicely!

## Canada's Great Victorian-Era Exposition and Industrial Fair. Held at Toronto Sept 11, 1897. The 1 cent Jubilee tied by Flag E.

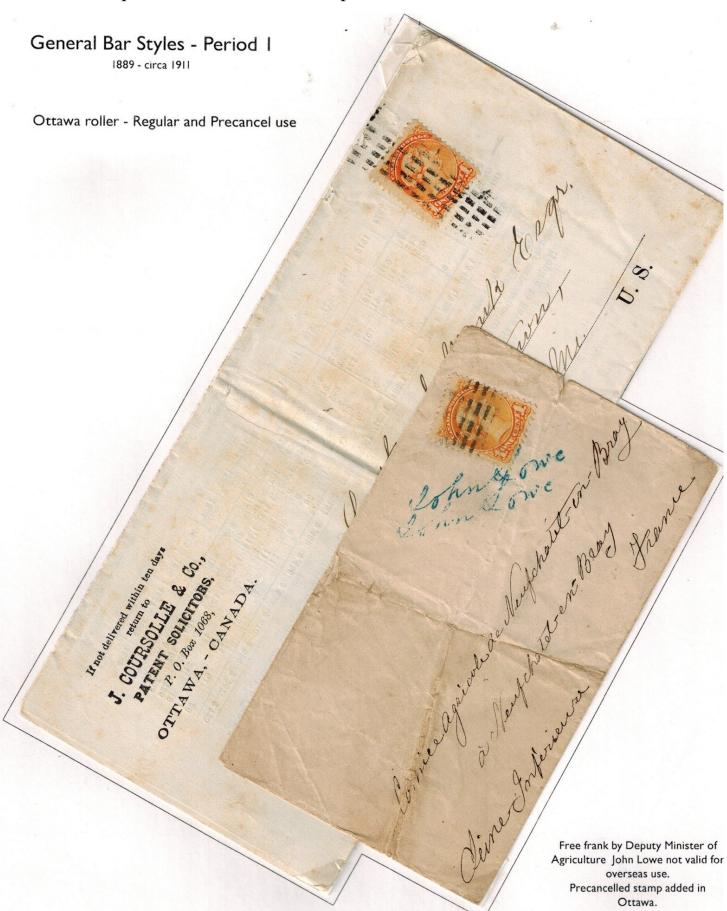

Vertical

### THE OTTAWA ROLLER

Was used as a postal cancel as well as a precancel.

Higher denomination precancels are not often found on cover, the main reason being that they were primarily used on packages, catalogues and larger objects. The two examples below are from larger wrappers and packages.

20 cents Style T precancels from a package

The 15 cent large queen above is the only example I have seen of that precancel still affixed to its original wrapper.

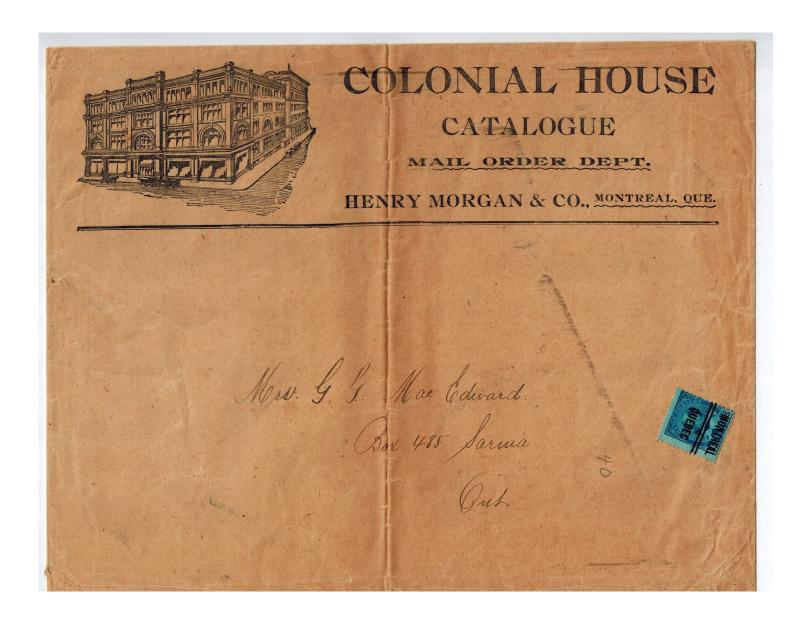

Wrapper from Eatons catalogue requesting return if not delicered.

### **Contrary to Regulations!**

Rollers were used by Postmasters to precancel sheets of stamps.

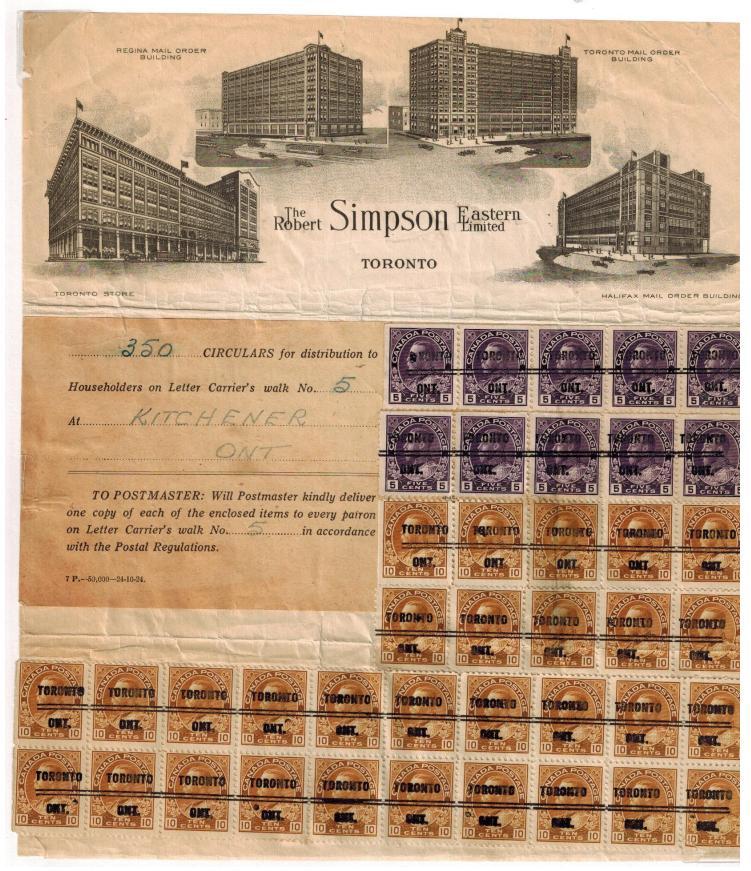

Colonial House Mail order catalogue franked with a 5 cent Edward.

Back of Colonial House Catalogue envelope.

Bulk mailing for delivery of circulars to every householder in a specific area. Kitchener Ontario, letter carriers walk #5. Robert Simpson Company, Toronto.

### WW1 SERVICE MEDALS

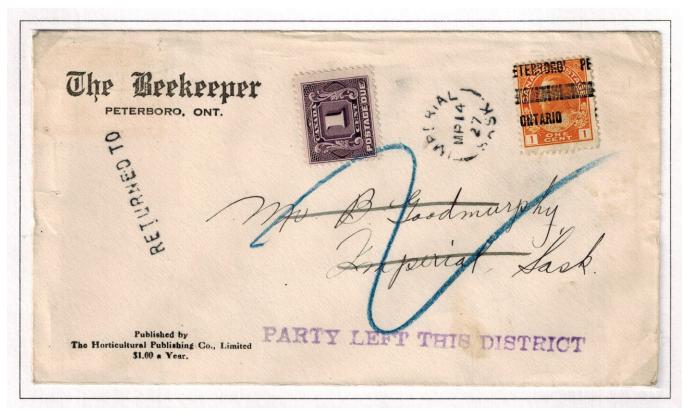

were mailed to Veterans from Ottawa using precancelled stamps.

### OFF THE BEATEN TRACK COVERS!

Sometimes additional markings can be found: Postage due stamps, city cancels, Handstamps.

28 cents parcel post to the USA.

Charged additional 5 cents, paid with Piqua precancelled postage due.

Now it is up to you folks! What do you have to share with your fellow precancel enthusiasts? Send it along to David for inclusion in future newsletters.
