

CANADIAN REVENUE NEWSLETTER

A PUBLICATION OF THE CANADIAN REVENUE GROUP OF BNAPS

Editor - J. Rockett

NOVEMBER - 1976 / 60

NOTE: This is the November Newsletter, I guess I tried to skip a month as I notice I dated last months Newsletter Nov. instead of October. Also; our good friend of long standing H. G. Walburn joined the Revenue Group and in the listing of new members last month I pulled a real bad boo, boo, by spelling his name with 2 "ll's" Please correct this error also.

80 members have sent in their 1977 dues - Are you one of these? I have enclosed the 1977 membership cards to these members with this Newsletter.

I don't think it is too far distant to mention 1977 B N A Convention will be in Edmonton. Also, we are planning the 1977 Mini Revenue Convention in Willow Grove, The date will be mentioned in the January Newsletter.

The Lee Brandom "Tax Paid Catalog" is now available at various dealers also at the BNA Book Dept. This is really a splendid Catalog listing and pricing the Tax paid of Canada. It is the first such Catalog fully illustrated ever issued on these revenue stamps.

Some notes on The 1958 B. C. LAW STAMPS by H. G. Walburn

This limited issue of Law Stamps came and went without much attention being paid to them and the 1968 Holmes and 1969 Jissons Catalogs didn't value them in relation to their scarcity. They are related to Scott's #377 both issues commemorating the founding of the Colony of British Columbia 100 years earlier, the Law Stamps showing pictures of contemporary Court House buildings, most of them no longer in existence. Vancouver's Court House is conspicuous by its absence the city's founding not taking place until 28 years later.

They were in use throughout the Province for a time but on March 1st 1958 Vancouver, Victoria and New Westminster courthouse switched over to the use of Meters so the three largest users of Law Stamps were eliminated. Sometime in 1959 the outstanding balance of the issue were recalled and presumably destroyed so the figures quoted by Holmes are probably fairly accurate but are not necessarily the numbers used. The figure of 3,000 for the 25¢ value is unbelievably small and Jack St. Laurent tells me there was a second printing in April of 2,500 in a lighter shade. There are also two shades of the 10¢ value so possibly there was a second printing of this value also. The format of all values was a miniature sheet 5 x 5 SE all around so only 9 per sheet or 36% are completely perfed. Reconstructing sheets of most values is not too difficult as there are many broken lines etc.

A few years ago the writer was privileged to examine a mint pair of the .50¢ value with the background color missing. Part of a sheet was saved for collectors of Revenues by a keen eyed Coastal resident and he watched for used copies turning up on documents without any success. Maybe one or more of these are still waiting to be discovered. I believe the balance of the mint ones
