KS

It's pretty hard to tell by looking at this couple that a senior's ...
#1 worry is outliving their retirement income, and ...
#2 worry is how to leave more to their family.

That's because this couple is living the retirement that they always dreamed of ...
the retirement that they planned for! You see they didn't agree that it was okay to
follow the path of the typical Canadian.

If you would ask them about their secret, they would tell you, "It's simple... take
a walk in the park and have fun!"

Maya Ahamad

Elements: The Building Blocks of Life

There are cranes and construction crews on campus: the Arthur Bourns Building (ABB) is currently under renovation. That means new labs and offices, new educational outreach opportunities and new learning spaces to leverage the exceptional faculty and students that inhabit these spaces.

For you, it's an opportunity to make your mark on ABB.

2019 is the Year of the Periodic Table
