

## **Revisions and New Listings for *Catalogue of Canadian Hunting and Fishing Revenue Stamps* (Rubec and Stover 2015)**

Six years ago BNAPS released our publication “*Catalogue of Canadian Hunting and Fishing Revenue Stamps*” (Rubec, C. and D. Stover, 2015). We were asked if an update would be feasible. So here it is! Part One (Pages 1-11) of this document herein provides revisions and corrections to the published 2015 text. Part Two (Pages 11-48) provides images and listings of new material released from 2016 to 2021 or noted since the 2015 publication was released. A short article in *BNA Topics* is also forthcoming.

### ***PART ONE: REVISIONS AND CORRECTIONS***

## **BRITISH COLUMBIA**

### **British Columbia Hunting Permit Stamps**

We have not noted any additions or corrections for these stamps listed but this section may need to be updated. We have not done so due to a lack of material to examine for the 2015-2020 period. However, the use of self-adhesive validation stamps for Resident Hunting Licences and Resident Species Licences in British Columbia was discontinued in 2017. Digital licences are now in use.

## BRITISH COLUMBIA

### New Listings: British Columbia Conservation Surcharge Fishing Stamps

British Columbia conservation Surcharge stamps continued up to 2017. Each stamp was used for a group of restricted fishing areas with a fee structure for Steelhead, Salmon, Kootenay or Shuswap Lake Rainbow Trout, and Shuswap Lake Char. Thus, two stamps are added but we are unsure if the 2017 stamp was replaced by digital licencing in British Columbia on April 1, 2017.

2016: BCF31.

2017: BCF32 (this stamp may not exist).

## NEW BRUNSWICK

### **NEWFOUNDLAND AND LABRADOR**

Hunting buttons are known for hunting and fishing permits in several Canadian jurisdictions. These usually exist for years from about 1920 to 1960, prior to use of paper and stamped licences. These are not examined in our Catalogue. However, we have decided it is important to describe Newfoundland and Labrador moose hunting, salmon fishing and trout fishing buttons used in the 1971 to 1985 period. The buttons are included here as they were issued by the Province in the otherwise total absence of hunting or fishing permit revenue stamps. It appears each button was also issued with a paper wallet card. Of course, there is one exception: we have also noted lobster and salmon cannery stamps from Newfoundland when it was a separate Dominion outside Canada in the 1930 to 1934 period.

**New Listings: Newfoundland and Labrador Moose Hunting Permit Buttons**

During 1971 and 1972 (and likely later years) Resident hunters were issued a pin-on button indicating they were licenced to hunt Moose. Only “Area A” buttons have been seen. We do not know if other game animal hunting licences in Newfoundland and Labrador used buttons like this. These are fee-based licence (thus revenue) validation buttons. For Moose buttons, we have seen no inserts as with similar fishing buttons described below.

Newfoundland and Labrador Moose Hunting Licence Buttons			
Year	Colour	Licence Fee (\$)	Retail Value (\$)
1971	Red and Black	Unknown	\$10.00
1972	Pink and Black	Unknown	\$10.00

**New Listings: Newfoundland and Labrador Inland Waters Fishing Permit Buttons**

From 1971 to at least 1985, Newfoundland and Labrador issued Resident and Non-Resident fishing permit buttons that were applied with a pin to clothing and contained an insert giving the permit number. These buttons have since been replaced with just a licence card. All required payment to validate the fishing permit. There are inland waters Resident and Non-Resident Salmon buttons plus Non-Resident Trout buttons. Each fishing button was designed to hold a folded paper insert with the year and licence number. The insert paper colours include white, pink and green. The printed typeface on the paper insert may be found in green, red, black, or red and black. Many inserts used handwritten numbers in ink. Some observed fishing buttons are accompanied with a small wallet card with the address of the angler. More data is needed to properly describe these items.

**New Listings: Newfoundland Lobster and Salmon Cannery Stamps**

**Newfoundland Lobsters Cannery Stamps** were created in the 1930 to 1934 period in Newfoundland (before its confederation with Canada in 1949) to facilitate accounting of lobster harvest catches. They were glued to cannery shipping boxes of one-pound cans of lobster. The roulette stamps were also a method of lobster catch quality certification. The stamps were created in sheets of an unknown size, with a handstamped control number on all the stamps on any given sheet. The control number itself is likely tied to the cannery licence number. These stamps were issued and used on a "catch record card" taking 10 stamps. The card measured 5.5x3.5 inches in size. It appears these cards were transmitted to the fisheries agency of the

Government of Newfoundland in St. John's to assist it in compiling lobster catch statistics. Two types of these lobster stamps are known: saying just "Newfoundland/control number/LOBSTERS" or the same with "1 LB NETT" overprinted in red in the stamp centre. These lobster stamps exist with and without periods. The placement of the control number on the lobster stamp varies.

**Newfoundland Salmon Cannery Stamps** also exist from the 1930 to 1934 period. As with lobster, the stamps were glued to cannery shipping boxes of one-pound cans of salmon. The salmon stamps are roulette and use green ink and black control numbers. These salmon stamps have three lines reading "Newfoundland/control number/SALMON." The 1st and 3<sup>rd</sup> lines are typeset, and the control number is handstamped in black on the stamp. There is also a blue typeset overprint reading "1 LB NET" at the centre. Like lobster stamps, the placement of the control number on the salmon stamps varies.

**Note:** Federal fisheries cannery stamps for the Canadian provinces of New Brunswick, Nova Scotia and Prince Edward Island, similar to those used in the 1930s in Newfoundland, are said in *Hansard* records to have been used in the 1895-1904 period. We have never seen any data or images of these stamps.

### **New Listings: Nova Scotia Hunting Stamps**

Nova Scotia hunting permit stamps up to 2015 are listed in Rubec and Stover (2015). The Province has since issued over 100 new stamps for hunting permits each year from 2016 to 2021. We have not yet confirmed or seen any of the stamps for 2021. All of these are similar to those from previous years.

## ONTARIO

Ontario stopped using stamps on provincial hunting and fishing licences in 2012. Validation stickers on Pelee Island Township annual Pheasant hunting licences were in use from at least 1981 to about 2008 and paper licences are still expected to be issued through to 2021. We have not seen any examples of these permits issued after 2008. Pheasant hunts on the Island have occurred since 1932. In 2021, “Main” hunts of three days each (always Thursday through Saturday) (Hunt 1: October 21-23; Hunt 2: October 28-30; and Hunt 3: November 4-6) are proposed. The fee for a 2021 Pelee Township pheasant hunting permit is \$282.50 with tax included and a 10-bird limit. Four three-day “Clean-Up” Pheasant hunts also follow from November 11 to December 4. The fee for these Clean-Up hunts is \$141.25 in 2021 with a limit of five birds. The 2020 hunt was cancelled due to COVID-19 pandemic concerns and there is a possibility that the 2021 season may also be cancelled.

### **New Listings: Township of Pelee (Pelee Island), Ontario Pheasant Hunting Licences and Stickers (1981 to 2021)**

The Township of Pelee constitutes Pelee Island that lies in the portion of Lake Erie that is in Canadian waters. The Pheasants are all raised on Pelee Island solely for this limited hunting season. The annual limited domestic Pheasant hunt used to be restricted to 700 licences maximum per three-day hunt. But this has been reduced to 375 licences and the number of hunters per season is now averaging about 350. The birds are raised locally and 8000 pheasants are traditionally released during each of the three hunting periods. Paper licences and cards were issued from 1981 to 2008 to registered hunters, often with stickers designating the hunter’s control number and hunting period. Fees have ranged from \$110.00 in 1981 to \$282.50 in 2019 per licence. This hunt has continued into 2021 but we have not seen any licences for the past decade. There are proposed to be three hunting periods in 2021, each of three-days duration. Each Main hunt licence has a bag limit of 10 birds.

Three licence styles have been seen for 1981 to 2008:

**Style 1:** White section at middle, folded form, no stickers, used 1981 to 1989. Numbers run in sequence in this period and style and continue into Style 2. Numbers 1-10000

**Style 2:** Light green form, numbered in sequence from 1990 through 1998 with coloured “HUNT 1”, “HUNT 2” or “HUNT 3” stickers, 1990-1998, continuous numbering year over year. Numbers 10001-~22000

**Style 3:** Postcard with adhesive white address label, 1999 to 2021, new numbers start each year (001- ).

QH5	Moose/Bear, Other – Resident	13.50	a		100.00
QH6	Caribou – Resident	---	a		100.00
<b>1973</b>					
We have no new data on these stamps. However, they are said to be similar to the 1972 stamps. If so, we would insert stamps for 1973 here (as QH7-QH12). Stamps for 1974 to 1978 licences (QH1-QH31) in our 2015 publication would thus be renumbered QH13-QH43. Retail value \$100.00 each.
