

Index to BNAPS Newfoundland Study Group Newsletter and News

Here is an index to the *Newsletter*, starting in 1985, and more recently, the *Study Group News*, of the Newfoundland Study Group of the British North America Philatelic Society.

Structure

The *Newsletter* and *News* are indexed by author, by topic, and by selected keywords, all interfiled in one alphabet in the first column, titled Term. The two columns to the immediate right show the issue number and the date of publication, and the fourth column, at the far right, shows the URL (aka Uniform Resource Locator, i.e. “web address”) for the issue. The addresses shown in the URL column are live links and should enable you to go directly to the issues as posted on the BNAPS website.

Indexing Strategy

I have tried to provide some consistency in the topical approach, so that all articles on a given event (e.g. the Alcock and Brown flight) appear in the same place in the index. The same goes for stamps – an attempt has been made bring things together under the approximate date of issue of the stamp, and an issue name that is familiar.

The index also tries to provide a keyword approach, and a limited number of cross references.

The author entries include articles and contributions of *all* lengths. In most cases a simple comment or question that appeared in a back issue will merit an author entry. An author entry is also indexed in situations where the newsletter reproduced, as a series, the pages from an exhibit.

Searching within Issues

In all cases the link in the URL column should take you to the first page of the issue. In most cases it’s pretty easy to scroll down through the issue to find the article. If it is not immediately apparent, there is almost always a way, within the software that renders your PDF files, to search for a keyword. (But -- if a search function is not immediately apparent, try entering Control-F.)

Search, Browse, and Enjoy

I am in awe at the amount and the quality of the work that the editors and other members of the study group have published in the *Newsletter* and *News* since 1985. I hope this index will enable you to search and find information more

readily. Maybe you'll also browse the index and discover, along the way, some of the many enjoyable articles that have been contributed over the last four decades.

Work in Progress

My intent is to provide this as an ongoing work in progress, and I'm happy to field questions, reports of errors, other comments, and suggestions for improvement.
