

THE BNA PERFORATOR

January 1982

PUBLISHED BY THE BRITISH NORTH AMERICA PHILATELIC SOCIETY
CANADIAN PERFIN STUDY GROUP

Volume 3 Number 1

CONGRATULATIONS

You have now completed all of the questionnaires. For the majority of you the last thing for you to do now is to review your purchases of scarcer stamps, RF50 and higher (including catalogue numbers), Special Deliverys, Air Mails, Coils, Precancels, and Revenues. Any further information should be forwarded to Joe Purcell.

Initial preparation of the Handbook has already been started. Participation is invited but it is not practical to send copies of the draft to everyone. The majority of the work will be done in Kingston and Calgary. Anyone who does not wish to have their name in the acknowledgements should advise Jon Johnson.

Work is continuing across Canada towards the plating of several of the perforating machines. This work most likely will continue for years to come. If anyone reaches the point where they consider their work relatively concrete please advise the Editor so that others can work on confirming the information. Another consideration is that this research could affect the new Handbook regarding the number of machines used by some of the companies. The new Handbook is quickly approaching the point where new information can not be added to the body of the information.

So now is the time for review and contemplation on the information already known on the various aspects of collecting perfin. Any ideas of potential errors should be discussed with other collectors and then forwarded to those summarizing the information, or if discussion is not possible then just send your queries directly to Joe Purcell or Jon Johnson. Now is the time to polish the work you have been doing for the past two years.

- - - - -

Congratulations are forwarded to David Izzett who has been elected as a member of the Royal Philatelic Society of London.

Letter to the Editor.

In Volume 2, Number 8 of the Perforator Maurice Decarie mentions a new perfin. I have just acquired a copy of the same perfin, it looks to me like 'LAPS'. He mentions that the letter 'A' could be a 'D' but the rest of the letters would dictate that the letter has to be an 'A'. My copy has no further clues as to the source. I should mention that my LAPS perfin is on the 5¢ Flower definitive #725.

Sincerely yours,

Merv Cormier M64

The following is a review of the perfins reported with Precancels. The identifications used are taken from the Precancel Handbook. If you have any that are not on this list please report them to Joe Purcell. Please check your reports carefully and if you should have any question please put it to Joe and he will tell you what you have.
