

The BNA PERFORATOR

Published by The British North America Philatelic Society - Canadian Perfins Study Group

Volume 16, Number 4 - Whole Number 95

August 18, 1995

From the Editor's Desk

Patrick Durbano

As the summer heat's up so does my urge to get back to my Perfins. It won't be long now until the heat wears off and the Fall Stamp Show season picks up. Speaking of Stamp Shows, I will not be able to make it to Edmonton for BNAPEX '95. I had been hoping to use my Frequent Flyer points to go but having procrastinated this long I now don't have time to convert them for Free Airfare. Alas, maybe next year!

You have probably just received your last perforator, and having read it thoroughly, noticed that it indicated that Conrad had Auction #11 planned. Well as you can see from the attached, it is here. Conrad has meticulously assembled over 460 lots of material. He has even found some nice "C" rated stuff for us to bid on.

Also, our Auction #10 results are included (all of them this time) as well as a First-come, First-serve listing of unsold lots from Auction #10. This is a new approach for us and I hope it appeals to many of you. To order these items, just refer to Auction #10 for the description of the lot then drop Conrad a note for the items you wish to purchase. Since all lots are subject to prior sale, do not send any money as Conrad will invoice you for the lots you receive. Also, do not forget to send in your bids for the current auction, both can be sent for the same First Class stamp.

Speaking of First Class stamps, I must apologize for Canada Post's inability to properly empty Street Letter Boxes. About 10 of you living in south and eastern Ontario had your Perforator delayed due to insufficient postage. It seems that the Street Letter Box that I used to mail the Perforators in was not completely emptied on the evening of July 31- the last day of the old rate and as such I had a bundle of canceled envelopes returned to me with a nasty note saying that I owed 2¢ more per piece. This took until August 8, 1995 to get back to me (longer than it would have taken to actually deliver them to the correct addresses.) Way to go Canada Post you generated 20¢ additional postage at a cost of probably \$2.00. No wonder rates keep going up!

Enough whining already. I trust that everyone going to BNAPEX 95 will have a safe and prosperous trip. I look forward to reporting on the events that take place out there relative to Perfins and our members, so be sure to mail me a note for our next Perforator.

Since the last Perforator, Michael Dicketts perfin collection was sold in about 40 lots through John Talman Auctions in Toronto. I was fortunate enough to acquire the bulk of it. It was truly an inspiring collection that any perfin collector would have been proud of. As for other Perfin lots for sale at auction, the balance of Robert Traquair's collection is to be auctioned off at Robert Lee's Auction in September. As well, I will be having my third mail Auction in the Fall.

Finally, I received an answer from one of our newest members with respect to Jon Johnson's request for the weight of his transatlantic cover. See elsewhere for the reply from Trelle Morrow.

Regards,

Patrick Durbano

Chairman's Chatter

Mark Fennell

I had not expected to write another Chatter so soon after receiving the last Perforator, but Patrick phoned me and asked if I could put a few words together, and few they are.

It was good to see the completed results of the A and B sections of Lorne James' survey. It is obvious this survey will have to be carefully studied when revising the Handbook as it is certain that several of the present factors need to be downgraded. One difficulty in trying to keep a running update of such a survey is that if a collector after the survey is published reports acquiring, for example, an A1 how sure are we that the stamp was not acquired from a collection already reported by the original owner? Thanks to Lorne for his splendid effort and I didn't bug him once to get it completed.

Finally photocopied and sent all the Perforators that Barry Senior needed to update our Perforator Index. It is now left up to him to do this as his time permits.

Have, at last, completed a 64 page perfin display for BNAPEX95 that I have worked on and off for the past several months. It was a time consuming effort as each page had to be prepared from scratch and the wording done on my old typewriter, as I have never had a desire for a computer and all the accessories. I had to do it in six stages,

all the way from initially scribbling on 64 sheets of paper what I wanted to show on each page on through to proofreading the finished display. It's rather a rambling effort going here, there and everywhere. My purpose in putting the display together is to publicize our speciality and hopefully create some new interest.

With some of our long time Study Group members selling their collections, it brought to mind a subject that Steve Koning suggested I mention. There are many collectors who depart this world with their collections intact and in such cases the subsequent disposal could or could not pose a problem. You have heard of cases of widows of stamp collectors being bewildered, due to a lack of instruction and a lack of knowledge of the subject, as to the best way to dispose of their late husband's collection. I forget what was at the end of the yellow brick road in the Wizard of Oz, but before we reach the end of our road, we should prepare our survivor, executor or estate in regard to the disposal of our collections. Not an exciting subject to write about but something we all have to face.

Hope that you noticed in the last Perforator the ad or request, whichever way you want to look at it, from one of our members. This is something we tried to promote a while back but had no takers. This is free, so feel free to participate.

I plan to report on BNAPEX in my next Chatter.

Weight of C46 First Flight

Trelle Morrow

Weight of packet shown travelling on the First Flight - Shediak to Foynes, June 24, 1939.

This spectacular cover would have weighed 5½ ounces. The Air Mail rate for this Trans Atlantic Service was 30¢ per ½ ounce. The postage paid was \$3.30 so dividing this by the unit rate produces a weight of 5½ ounces.

PERFIN STUDY GROUP AUCTION No.11

Welcome to the 11th PSG Auction.

4 vendors offering 462 lots Of which 111 are illustrated to help you evaluate the items. Although this auction is smaller than usual, you will find on the last page, 231 unsold lots from auction #10 exceptionnally offered here at 75% of our usually low estimated value, for cash to the first buyer.

In this auction, another large portion of the collection I have for sale - from one of our club member - starting from the pattern J1 (JA) to N28 (NYC). You will find 6 rated "C" patterns, including M2 (MC), M15 (MLI/Co on revenue), N8 (2 copies of NLY pattern), and N24 (NRB).

All the lots photographed are reduced to 50% to save space.

Bids lower than 75% of the estimated value will be declined.

Kindly bid by lot number in 10¢ increments below a dollar and 25¢ increments otherwise. Successful bids will be 10% above the next highest bid, rounded up according to the above increments. The Study Group will charge a 10% commission only on the lots sold, payable by the consignors.

Successful bidders will be notified by mail. The stamps will be forwarded on receipt of funds. All lots with a \$100 value or more will be sent by registered mail. Mailing cost will be paid by the buyer.

Send your bids early to: Conrad M. Tremblay,
3259 Lookout Park,
Rawdon, Quebec, Canada
J0K 1S0 or call (514) 834-3052.

Bidding closes September 9 1995 at midnight (postmarked on your letter).

All bids will be in canadian funds. Payments in U.S. dollars acceptable at a discount of 20%.

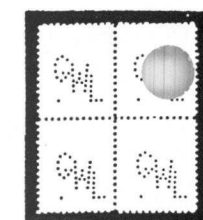

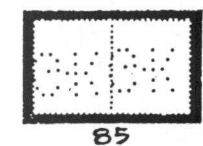

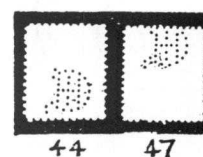

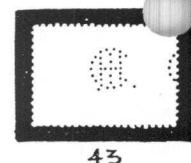

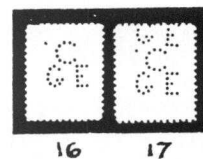

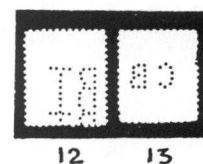

GOOD LUCK and thank you for your participation.
