**R.P.O. Newsletter Information Finder**  
**Vol 28 no. 1 to Vol 49 no. 4 (pages 1538 to 2807)**

**Compiled by Richard Cromwell and Brian Stalker**  
**Edited by Ross Gray**

An “*Index to Newsletters 1 to 143, Volume 1 No.1 to Volume 27 No.6, 1973 to 1999*”, compiled by William G Robinson was published in 1999. Up to that time the Newsletter pages had not been numbered sequentially but from November 1999 they were, starting with page number 1548. This Newsletter Information Finder begins where the “Index” concluded, retrospectively numbering pages 1538 to 1547.

Up to and including Volume 37 No.4 (April 2009) “Ludlow” listing numbers were used but from Volume 37 No.5 (May 2009), following publication of the first edition of the new catalogue compiled by Ross Gray, new “Gray” listing numbers have been used in the Newsletters. Both “Gray” and “Ludow” numbers are provided in this Information Finder which includes the following sub-sections:

1. A listing of all “regular”(i.e. not clerk) date-stamps and hand-stamps which feature in Hammer Studies and in historical summary articles. Only the first page of multi-page articles is listed, and, in general, earliest and latest date reports are not included. Hammer Studies with chordal analyses are underlined. **Page 2 to 25**
2. A listing of mail clerk hammers by surname and initials. **Page 26 to 38**
3. A listing of Railway Company articles – note that maps, timetables and picture post cards are often included in these articles. **Page 39 to 44**
4. Railway Timetables. **Page 44 to 47**
5. Picture Post Cards and photographs. **Page 47 to 50**
6. Miscellaneous Articles relating to the transport of mail and the Railway Mail Service. **Page 50 to 53**
7. An Appendix provides a link between page numbers and Volume # for those accessing newsletters via the BNAPS website. **Page 54 to 55**
