

ANNEX V - CATALOGUE of CANADIAN RAILWAY CANCELLATIONS - 1987

For the fifth consecutive year we present herewith our annual supplement to the Catalogue of Canadian Railway Cancellations and Related Transportation Postmarks, originally published in 1982. Annex V contains all the new information received and confirmed in the twelve months that have past since the issuance of Annex IV. It is interesting to note that Annex V contains, in balance, more new data than any one of the four previous supplements. This would seem to confirm that there has been no waning of interest in the collection of railway cancellations of Canada.

Summarizing Annex V, we list herewith 13 new reporters, 102 new listings not previously known, two more listings that were previously known from their proof strikes, four additional listings that were previously unconfirmed and three new type designs for cancellation identification. Additionally, we have delineated 143 new earliest and latest dates, 104 new train numbers, 19 new sections and time marks and made 23 further revisions and corrections to the catalogue. Finally, for the third year in a row, there has not been necessary to relist any more of the approximately 400 listings that were delisted from the catalogue in 1982.

NEW REPORTERS

Fourteen new reporters have been added during the past year; since 1982, that makes a total of 49 new reporters who have joined the ranks of those contributing new data and information with which to update and maintain the catalogue in a current status. The effort of all contributing reporters is deeply appreciated; without them, we could not continue this activity.

NEW LISTINGS

Following are more than 100 new listings added to the catalogue in the last year. Although the predominate number are proof strikes, included herein are some very rare cancellations from the Quebec, Ticket Stamp and Steamer Sections. It is very interesting to note that in the last five years we have added 365 new listings to the catalogue, more than a 12% increase in total listings.

"O.P.K." LISTINGS CONFIRMED						
In this supplement we confirm discovery of the use of two more listings previously known only from their proof strikes. ("O.P.K."= Only Proof Known) In the last five years there have been eleven such finds, reducing our originally reported O.P.K. listings from 114 to 103.

When publishing the catalogue in 1982, we established 139 listings as "no report" because - although we had not been able to confirm same - there was probable cause for their existence. In the intervening five years we have been able to confirm 30 such listings, including the four that follow herewith.

NEW TYPES ESTABLISHED

The following three new types are required to properly identify their respective cancellations. A total of only six new types have been added to the approximate 200 that were originally presented in the catalogue in 1982.

- Type 6J Full outer circle, half inner circle; run at top, clerk name at bottom. Currently unique for MA-15A.
- Type 7F Any double frame line circle broken on each side, and latter controls. Currently applies only to O-143B.
- Type 22L Three line entry, run in middle, clerk name at bottom. Currently unique for Q-231B.

NEW EARLIEST AND LATEST DATES FOR PERIOD OF USE

We list herewith over 140 new earliest and latest dates reported and confirmed in the last twelve months. Since 1982, there have been over 575 such changes, sometimes same happening for the same listing. As with New Listings, new "O.P.K." and "No Report" Listings, all dates presented herein are in the American format - month / day / year. With changes in the period of use, there is often - but not always - a change in rarity factor; when this occurs, such has been indicated.

There's no space left for any other news this time.
 Many thanks for all the work Lew has done this issue.
 There will be another issue for BNAPEX '87. See you then.
