Volume 50 - No. 2 Whole No. 265 April - June, 2022

This issue has an article examining the R.P.O.s used on the Oxford Branch of the ICR/CGR/CNR in Nova Scotia, another article on the St. Paul & Edmonton, Elk Point & Edmonton and Bonnyville & Edmonton R.P.O.s. and a third about the R.P.O.s operated over the London & Port Stanley Railway. There are also new reports from **Jack Brandt**, **Ross Gray** and **Sean Weatherup**, as well as the Secretary-Treasurer's report from Sean Weatherup.

ON-637.02, TOR. & LON. G.T.R. R.P.O. / N^{Ω} 2 , 7, FE 23, 19 , is the first report of train 7 for the hammer.

I.C.R. Station - Oxford Junction, Nova Scotia
The Newsletter of the Canadian R.P.O. Study Group (B.N.A.P.S.)

Oxford & Pictou R.P.O.

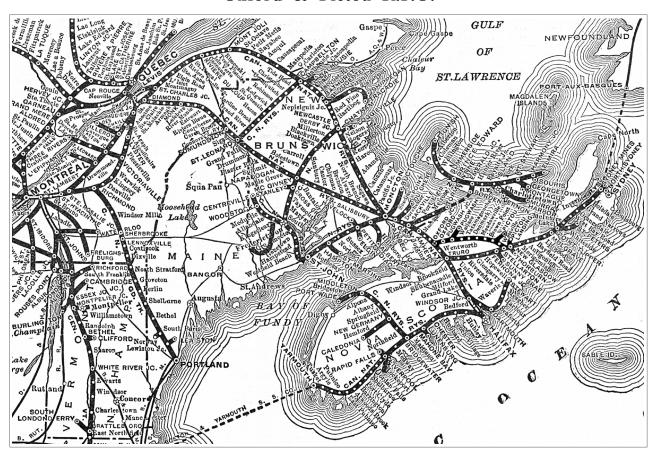

The Oxford & Pictou R.P.O. actually operated between Oxford Junction & Pictou, via Oxford.

St. Paul de Metis & Edmonton R.P.O.

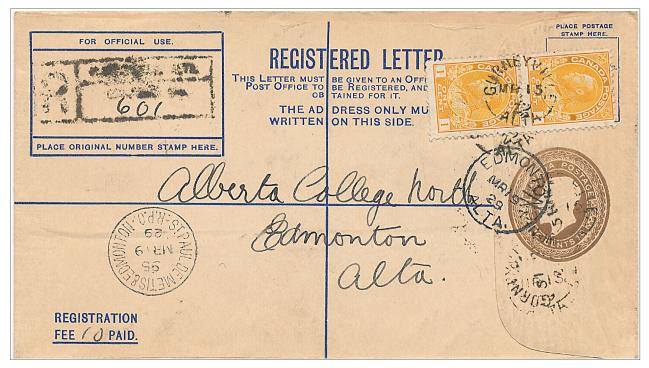

Canadian National Railways public timetable March 2, 1930

The Canadian National Railways branch line from St. Paul Junction, 6 miles east of Edmonton, was completed as far as Spedden in 1919 and reached St. Paul de Metis in 1920. In 1926 the line was extended further eastward to Elk Point and reached Heinsburg in 1928.

Proof struck on December 6, 1928, **WT-683**, S^I PAUL DE METIS & EDMONTON / · R.P.O. · , was the first postmark used on the line. Its use was very brief and is only known between January 8 1929 and June 6, 1929. St. Paul de Metis became known simply as St. Paul in 1929 and a new replacement hammer, **WT-684**, S^I PAUL & EDMONTON · R.P.O. / . , was proof struck on September 13, 1929. It was also only very briefly used from November 12, 1929 until April 24, 1930.

The R.P.O. run was extended further east to Elk Point in 1930 and used **WT-229.01**, ELK POINT & EDM. R.P.O. / . , which had been proof struck on April 24, 1930. Known use is from September 8, 1930.

New Reports from Ross Gray

This across the country registered cover from Vancouver to Kentville has a new **early date** for hammer **MT-146.03**, HX. DIG. & YAR. / R.P.O., 98, JUN 13, 29.

QC-118.04, MALONE & MONTREAL . R.P.O. / . , S, OC 13, 27 , used as a transit backstamp on a registered cover from Ottawa to Berwick, PA., is the first report of an "S" direction indicium for the hammer.

ON-506.01, SI THOMAS & WINDSOR. R.P.O. / . , E JU 21, 18 , is a new **late date** for the hammer.

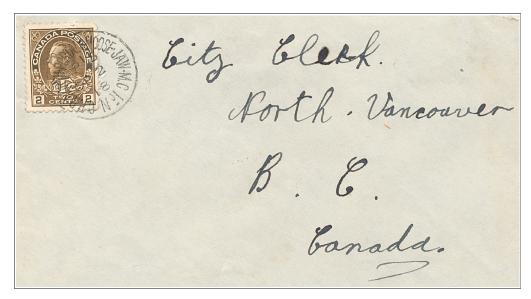

New Reports from Ross Gray

ON-658.01, TOR. LON. & WINDSOR / R.P.O. , 18, MY 26, 32 , is a new **early date** and the first report of **train 18** for the hammer.

WT-212.031, EDM. & PR.GEORGE . R.P.O. / N^{Ω} 3 , 8, OC 19, 35 , is the first report of **train 8** for the hammer.

WT-522.01, C.P.R. NORTH \cdot PORTAL & MOOSE \cdot JAW \cdot M.C. / Nº 1 , 315, SP 2, 18 , is the first report of train 315 for the hammer.

The London & Port Stanley Railway

The 24 mile **London & Port Stanley Railway** was an independent railway controlled by the City of London, from when it officially opened on October 28, 1856, until it became part of Canadian National Railways on January 1, 1966.

Due to financial problems, it was leased to the **Great Western Railway** for 20 years in September, 1872. During that time, the only R.P.O. bearing the railway's name, **RY-110**, L. AND - P. S. R. R., was used on G.W.R. trains. In 1884, the G.W.R. merged with the **Grand Trunk Railway**, and the lease continued until 1893.

RY-110 used on G.W.R. trains Period 1874/08/10 to 1884/01/07 Indicia - NORTH, SOUTH

In 1893, the **Lake Erie & Detroit River Railway** leased the railway. In 1903, the lease was assumed by the **Pere Marquette Railway**, which had leased the Lake Erie & Detroit River Railway. The P.M.R. lease ended on January 1, 1914, when the City of London assumed full control of the line. Electrification of the line was completed in July, 1915.

Between 1887 and 1938 the London & Port Stanley Railway provided an important link between London and St. Thomas for trains operated by the G.T.R., C.N.R., L.E. & D.R.R. and P.M.R., including R.P.O. services.

New Reports from Jack Brandt

ON-506.02, SI THOMAS & WINDSOR R.P.O. / . , 365, MY 15, 48, is a new **late date** for both the hammer and the listing.

ON-827.03, TOR. STRAT. & GODERICH \cdot R.P.O. / . , 27, 27 VII, 56 , is a new **late date** for the hammer.

WT212.031, EDM. & PR. GEORGE \cdot R.P.O. / No 3, E, No 18, 28, is the second report of this unusual indicium. The editor previously observed a July 21, 1932 date in an on-line auction.

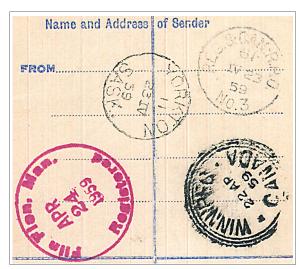

WT-267.011, KAM. & SASK.- R.P.O. / \mathbb{N}^{Q} 1, E, AP 8, 22, is a new **early date** for the hammer.

WT-589.02, PRINCE GEORGE & TERRACE / \cdot R.P.O. \cdot , 195, 24 IX, 60, is a new **early date** and first report of **train** 195 for the hammer, as well as a new **early date** for the listing.

WT-592.03, REG. & CAN: R.P.O. / No. 3, 61, IV 23, 59, used as a transit stamp on a registered cover from Lower Harlech, G.B. to Flin Flon, is a new late date for the hammer.

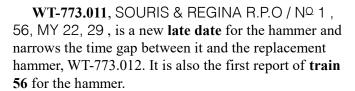

WT-640.55, REGINA & P. ALBERT R.P.O. / JNO. CADDEN, M.C. , TRAIN S, SEP 13 1909 , type OV2R, is a **new**, previously **unreported clerk handstamp** and was used as a transit backstamp on a cover from Nutana, SK to Yorkton.

New Reports from Jack Brandt

WT-748.012, SASK & PR. ALBERT . R.P.O. / NQ 1 , N, DE 1, 25 , is a new early date for this hammer, which was proof struck on November 29, 1924. It is used as a transit stamp on a registered letter from Newcastle, England to MacDowall, SK.

WT-876.02, WINNIPEG & EDMONTON R.P.O. / N^{Ω} 2, E, AP 26, 07 , is a new **early date** for the hammer.

WT-957.06, WINNIPEG & PRINCE ALBERT \cdot R.P.O. / Nº 6 , E, SP 9, 14, is a new late date for the hammer.

Another 2nd Period Late Date for WT-879

On page 2809 of the previous issue, we saw Sean Weatherup's cover with a new **late 2nd period date** for **WT-879**, C.P.R. WINNIPEG & GLENBORO / 1, E, FE 16, (9)9. Now, a second cover with the same date has appeared. The 2 day delay between the originating office at Hartney and the R.P.O. terminal, a distance of 62 miles, lends credence to the theory of bad weather or an accident being the cause of the very brief 2 day revival of this R.P.O.

New Reports

Sean Weatherup reports this example of **QC-303.03**, MONTREAL & TORONTO . REG'D / . , 19 JUL 8, 2(3?), which is a new **late date** and first report of **train 19** for the hammer.

Observed in a recent Weeda Auction, WT-987, W'PEG & YORKTON R.P.O. / N^{Q} 1, 106, MY 12, 19, is the first report of **train 106** for the listing.

Secretary-Treasurers Report

There are currently 7 members who are in arrears for 2022 Study Group Membership. Please contact me (*info at bottom of page*) as soon as possible to ensure your newsletter delivery is not disrupted.

On a positive note, there has been an overwhelming response from members with regard to the **New Newsletter Index** which covers Vol 28, No. 1, (Sept. 1999) to Vol 49, No. 4 (Oct.-Dec. 2021) or pages 1538 to 2807. Everyone who has contacted me thus far has had a most favourable review. Thank you to **Brian Stalker** and **Richard Cromwell** for putting this together.

Thanks also to **Ross Gray** who has found and uploaded Bill Robinson's original index which covers Vol. 1, No. 1, (Nov. 1973) to Vol. 27, No. 6 (August 1999).

There are a few members without e-mail who have been contacted postally to make them aware of the indexes, and how to acquire one. The best and most efficient method would be to either download the index from the One-Drive site or you can go through the BNAPS website to find a downloadable version. That said, while we are able to make printed copies of the NEW INDEX available to members. The cost of printing and mailing is rather hefty, in the neighbourhood of \$20.00 in Canada and \$25.00 to the USA. If you would like to request a printed copy, contact me and I will let you know the exact cost.

Recently observed in two on line auction sites, is an apparent <u>forgery</u> of MT-59.01, P. E. I. R. R - C & S / $_{-}$ N $_{-}$ 1 $_{-}$, blank, OC 15, 72. No proof date is known, but the earliest reported date for the hammer is 3 years after this date and the lettering of the impression is broadened, as happens with wear.

Although the example on the blue stamp is much more difficult to read, it is the same date. Presumably, both are attempts to increase the value of the stamps.
