

THE ROUND UP ANEX

THE SQUARED CIRCLE NEWSLETTER

EDITORS: G.F. Hansen, 375 Jefferson Avenue, Winnipeg, Manitoba, Canada, R2V ON4.
W.G. Moffatt, Hickory Hollow, R.R.3, Ballston Lake, N.Y. U.S.A., 12019.

Volume Two. Number Two. Whole Number Ten.

January, 1978.

The Contents of This Issue:

One thing we are all interested in is how the other fellow collects Squared Circles. For several months we have been featuring Nels Pelletier's collection of Map Stamps with Squared Circles but now I have gathered together several sample pages from the collections of several members. Dr. Moffatt has contributed two simple pages with method of mounting both Jubilees and Map Stamps. Gerald Carr, somewhat more elaborately, has contributed several pages from his collection and here we show his page with Wingham on Map Stamp. Warren Bosch has contributed his "townfinder" listing which has some similarity to the Hennok "backward spelling" listing of last month. With both the lists at your service town identification should be a bit easier. Pete Weidemann lets us see his Oxford Mills page from his collection with what I think is a really remarkable cover and cancel. Our first page of adlets completes the issue.

News From Here and There:

Readers are still sending in xerox copies of any good clear strikes so the projected series of pages for our own roster may be able to begin within an issue or two. Want to be able to show strikes in a logical series of five, as suggested, so I still will appreciate any clear strikes you can send.

The Aldergrove postcard offered in an auction by member Ted Woodward went, I understand, for \$165.00. Another Aldergrove also showed up at another western shop and was also sold at auction. This makes three Aldergroves I know of that have shown up this fall and winter. Date on the two I know of is the same, AU 10/07, a new late date. See the illustration on page 116, the last issue.

Frank Hoyles reports a new ~~late~~ date for Goderich, Ontario, JA 26/94, on a pair of 1 ¢ Small Queens. This is one day after proofing and so likely will stand. Rick Parama has Kaslo, B.C. with MY 21/95 and MY 16/95. These are early dates and we think the 16th is likely the earliest found so far.

Lew Ludlow has sent me a page of xeroxes of strikes from the proofbook at New York. This includes strikes of all four Winnipeg hammers, the two Montreal Type Twos, the two Sherbrookes, Bleeker St., Waterdown, Coleman, St. Johns, Simcoe, and a few others. This will appear in the next issue. Lew sent this all the way over the Pacific from Japan.

Lew also sent along a listing of his holdings of the forerunners. There are 3 Seaforths, 12 Ottawas, and multiples of all the others except St. Johns, Newfoundland.

CAPEX '78:

There appear to be a number of us going to CAPEX '78 in Toronto this June and we should plan to be there together if we can. Dates are Friday, June 9th., to Sunday June 18th, inclusive and I understand BNAPS is planning events for the latter part of the program, something like from Thursday the 15th., on. Let me know when and if you plan to be there and possibly where you will be staying. We should have at least a session together.

Imperial Penny Postage Issue of 1898

Squared Circle Postmark

Wingham, Ontario Second State

Earliest: SP 21, 1893

Latest: JU 16, 1902

Time Mark: None used.

A true Type 2 Squared Circle, until the Hammer was altered by reducing the top and base bars into thin bars top and base. The altering was probably done with a file, or ground down with a grinding wheel...

Type 2 (Whitehead)

MY 5,- 99

1st State

2nd State

THE SQUARED CIRCLE "TOWNFINDER."

Warren L. Bosch, Ph. D.

DIRECTIONS: This "Townfinder" is merely a listing of the towns using squared circle cancellations in alphabetical order according to the ending of the name. It is designed to avoid the necessity of flipping pages of the handbook incessantly looking for towns with known combinations of last letters in their names. If the last letter is known simply scan the listing of town names shown under that letter in this list. This is another version of the list presented last month by Jim Hennok and the two, in conjunction with each other, will make townfinding easier.
